

Notes to the Standalone Financial Statements (Contd.)

future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in "other financial liabilities"

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Fit-out rental income is recognised in the statement of profit and loss on accrual basis.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

t) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1) Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI) and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, net of transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 2.2 (h) 'Revenue from contracts with customers'.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets or both.

Subsequent measurement

i. Financial assets carried at amortised cost – a financial asset is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

ii. Investments in equity instruments of subsidiaries, joint ventures and associates – Investments in equity instruments of subsidiaries, joint ventures and associates are accounted for at cost in accordance with Ind AS 27 *Separate Financial Statements*.

iii. Investments in other equity instruments – Investments in equity instruments which are held for trading are classified as at fair value through profit or loss (FVTPL). For all other equity instruments, the Company makes an irrevocable choice upon initial recognition, on an instrument by instrument basis, to classify the same either as at fair value through other comprehensive income (FVTOCI) or fair value through profit or loss (FVTPL). Amounts presented in other comprehensive income are not subsequently transferred to profit or loss. However, the Company transfers the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

iv. Investments in mutual funds – Investments in mutual funds are measured at fair value through profit and loss (FVTPL).

v. Derivative instrument - The Company holds derivative financial instruments to hedge its foreign currency exposure for underlying external commercial borrowings ('ECB'). Derivative financial instruments has been accounted for at FVTPL

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's standalone balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

(i) *Trade receivables*

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

(ii) *Other financial assets*

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since

initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

2) Non-derivative financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, security deposits, loans and borrowings and other financial liabilities including bank overdrafts and financial guarantee contracts.

Subsequent measurement

Subsequent to initial recognition, the measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified party fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized as a financial liability at the time the guarantee is issued at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of expected loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortization.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3) Reclassification of financial instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets

Notes to the Standalone Financial Statements (Contd.)

which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

4) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

u) Fair value measurement

The Company measures financial instruments such as derivative instruments etc at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as properties and unquoted financial assets, and significant liabilities, such as contingent consideration. Involvement of external valuers is decided upon annually by the management. Valuers are selected based on market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (note 4 & 37)
- Quantitative disclosures of fair value measurement hierarchy (note 37)
- Investment in unquoted equity shares (note 6B)
- Investment properties (note 4)
- Financial instruments (including those carried at amortised cost) (note 38)

v) Optionally convertible redeemable preference shares

Optionally convertible redeemable preference shares issued by wholly-owned subsidiaries are accounted as investments carried at cost. In such instruments, only the subsidiaries companies have the option to buy back and dividend will be completely discretionary at the option of the subsidiary. The Company will not have any legal or contractual right either in normal or in default scenario to require the subsidiaries to make payment of principal or interest as issuer has the right to convert the instrument into equity shares at any time during its tenure. Amount is fixed at upfront and conversion will be into fixed number of shares.

w) Convertible Instruments

Convertible instruments are separated into liability and equity components based on the terms of the contract. On issuance of the convertible instruments, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not remeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible instruments based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

x) Non-current assets held for sale

The Company classifies non-current assets and disposal groups as held for sale if their carrying amounts will be recovered principally through a sale/ distribution rather than

through continuing use. Actions required to complete the sale/ distribution should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales/ distribution of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset,
- An active programme to locate a buyer and complete the plan has been initiated,
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale to owners are not depreciated or amortised.

y) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the period. The weighted-average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted-average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

z) Changes in accounting policies and disclosures

New and amended standards

The Company applied Ind AS 116 for the first time in the current year. The nature and effect of the changes as a result of adoption of this new accounting standard is described below and note 48.

Several other amendments apply for the first time for the year ending 31 March 2020, but do not have an impact on the standalone financial statements of the Company.

The Company has not early adopted any standards or amendments that have been issued but are not yet effective.

Ind AS 116: Leases

Ind AS 116 supersedes Ind AS 17 Leases. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 does not have an impact for leases where the Company is the lessor.

Upon adoption of Ind AS 116, the Company applied a single recognition and measurement approach for all leases for which it is the lessee, except for short-term leases and leases of low-value assets. The Company recognised lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company adopted Ind AS 116 using the modified retrospective method of adoption, with the date of initial application of 1 April 2019. The Company elected to use the transition practical expedient to not reassess whether a contract is, or contains, a lease at 1 April 2019. Instead, the Company applied the standard only to contracts that were previously identified as leases applying Ind AS 17. The Company also elected to use the recognition exemptions for lease contracts that, at the transition date, have a lease term of 12 months or less and do not contain a purchase option (short-term leases), and lease contracts for which the underlying asset is of low value (low-value assets).

The Company has applied the modified retrospective approach to existing lease contracts as of 1 April 2019 and has recorded right to use assets for an amount equal to right to use liability adjusted for any related prepaid and accrued lease payments previously recognised. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. Further, lease arrangements where the Company is lessor, lease rentals are recognized on straight line basis over the non-cancellable period and consequently, period of security deposits has also been aligned as per the lease term considered for Ind AS 116. Due to alignment of period of security deposit in line with lease term, a gain of ₹ 1,266.04 lakhs has been recorded in retained earnings as at the said date. Refer note 48 for detailed disclosures as required under Ind AS 116.

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application

Notes to the Standalone Financial Statements (Contd.)

- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

Appendix C to Ind AS 12: Income taxes

Appendix C - Uncertainty over Income Tax Treatment has been inserted in Ind AS 12. The appendix C to Ind AS 12 addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of Ind AS 12 Income Taxes. It does not apply to taxes or levies outside the scope of Ind AS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The appendix specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty. The Company applies significant judgement in identifying uncertainties over income tax treatments.

Upon adoption of the Interpretation, the Company considered whether it has any uncertain tax positions. The Company's tax filings include deductions based on the management judgement and the taxation authorities may challenge those tax treatments. The Company determined, based on its tax compliance and transfer pricing study, that it is probable that its tax treatments will be accepted by the taxation authorities. The amendment did not have any material impact on the standalone financial statements of the Company.

Amendment to Ind AS 109: Prepayment Features with Negative Compensation

Under Ind AS 109, a debt instrument can be measured at amortised cost or at fair value through other comprehensive income, provided that the contractual cash flows are 'solely payments of principal and interest on the principal amount outstanding' (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to Ind AS 109 clarify that a financial asset passes the SPPI criterion regardless of an event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. These amendments had no impact on the standalone financial statements of the Company.

Amendment to Ind AS 19: Plan Amendment, Curtailment or Settlement

The amendments to Ind AS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to determine the current service cost for the remainder of the period after the

plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event. An entity is also required to determine the net interest for the remainder of the period after the plan amendment, curtailment or settlement using the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event, and the discount rate used to remeasure that net defined benefit liability (asset). The amendments had no impact on the standalone financial statements of the Company as it did not have any plan amendments, curtailments, or settlements during the period.

Amendments to Ind AS 12: Income taxes

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognises the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where it originally recognised those past transactions or events. An entity applies the amendments for annual reporting periods beginning on or after 1 April 2019, with early application permitted. When the entity first applies those amendments, it applies them to the income tax consequences of dividends recognised on or after the beginning of the earliest comparative period. Since the Company's current practice is in line with these amendments, they had no impact on the standalone financial statements of the Company.

Amendments to Ind AS 23: Borrowing Costs

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete. The entity applies the amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after 1 April 2019, with early application permitted. Since the Company's current practice is in line with these amendments, they had no impact on the standalone financial statements of the Company.

aa) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Determining the lease term of contracts with renewal and termination options (Company as lessee)- The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However the actual future outcome may be different from this judgement.

Revenue from contracts with customers-The Company has applied judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers.

Significant estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Net realizable value of inventory –The determination of net realisable value of inventory involves estimates based on prevailing market conditions, current prices and expected date of commencement and completion of the project, the estimated future selling price, cost to complete projects and selling cost. The Company also involves specialist to perform valuations of inventories, wherever required.

Useful lives of depreciable/ amortisable assets – Management reviews its estimate of the useful lives of depreciable/ amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Valuation of investment property – Investment property is stated at cost. However, as per Ind AS 40 there is a requirement to disclose fair value as at the balance sheet date. The Company engaged independent valuation specialists to determine the fair value of its investment property as at reporting date. The determination of the fair value of investment properties requires the use of estimates such as future cash flows from the assets (such as lettings, future revenue streams, capital values of fixtures and fittings, any environmental matters and the overall repair and condition of the property) and discount rates applicable to those assets. In addition, development risks (such as construction and letting risk) are also taken into consideration when determining the fair value of the properties under construction. These estimates are based on local market conditions existing at the balance sheet date.

Impairment of Property plant equipment, Investment properties and CWIP – Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The value in use calculation is based on a DCF model. The cash flows are derived from the budgets. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurement disclosures – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

Valuation of investment in subsidiaries, joint ventures and associates – Investments in subsidiaries, joint ventures and associates are carried at cost. At each balance sheet date, the management assesses the indicators of impairment of such investments. This requires assessment of several external and internal factor including capitalisation rate, key assumption used in discounted cash flow models (such as revenue growth, unit price and discount rates) or sales comparison method which may affect the carrying value of investments in subsidiaries, joint ventures and associates.

Less: depreciation	3,299.79	8,784.43
Profit from leasing of investment properties	22,432.70	38,526.30

* It includes advertisement and publicity, sales promotion, fee & taxes, ground rent, repair and maintenance, legal & professional, commission and brokerage.

(b) **Fair value hierarchy and valuation technique**

1) The Company's investment properties consist of two class of assets i.e., commercial properties and retail mall, which has been determined based on the nature, characteristics and risks of each property. As at 31 March 2020 and 31 March 2019, the fair values of the properties are ₹ 433,861.82 lakhs and ₹ 460,279.69 lakhs respectively. The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualification and recent experience in the location and category of the property being valued. A valuation model in accordance with that recommended by the international valuation standards committee had been applied. The Company obtains independent valuations for its investment properties annually and fair value measurement has been categorised as Level 3. The fair value has been arrived using discounted cash flow projections based on reliable estimates of future cash flows considering growth in rental of 3% (31 March 2019: 3%-5%) long term vacancy rate of 2.00%-3.00% (31 March 2019: 7.50%-9-50%) and discount rate of 11.50%-12.00% (31 March 2019: 11.50%).

2) In addition to a) above, the Company ("Developer") has a land parcels which is notified Special Economic Zone ("SEZ") and classified under investment property. The Developer has partially developed the SEZ under the co-development agreement between the Company and DLF Assets Limited ("DAPL" or "the Co-developer") and transferred completed bare shell buildings to DAPL. Remaining portion of such land is under development. As per the co-developer agreement, the underneath the buildings has been given on long-term lease to DAPL. The management has assessed that the value of such SEZ land classified under investment property, based on the prevailing circle rates, is higher than the book value. However, given the above arrangement and restriction on the sale of land in a SEZ as described under SEZ Rules 2006, the management considered carrying value aggregating ₹ 11,554.66 lakhs (31 March 2019: ₹ 13,214.25 lakhs) to be a reasonable estimate of its fair value.

Reconciliation of fair value

Tax income/ (expense) during the year recognised in OCI	115.61	31.18
Closing balance as at 31 March	247,387.61	367,450.55

- (i) The asset of ₹ Nil (31 March 2019: ₹ 13,009.77 lakhs) recognized by the Company as 'MAT credit entitlement' represents that portion of MAT liability, which can be recovered and set-off in subsequent years based on provisions of Section 115JAA of the Income-tax Act, 1961. Upon adoption of tax rate under the newly inserted Section 115BAA in the Income-tax Act, 1961, the Company has charged off the accumulated MAT credit entitlement to Statement of Profit and Loss during the current year (refer note 42).
- (ii) Deferred tax asset is recognized on unabsorbed depreciation and carry forward losses to the extent it is probable that future taxable profits will be available against which the deductible temporary differences, unabsorbed depreciation and carried forward tax losses can be utilised. The Company has tax losses of ₹ 1,166,073.14 lakhs (31 March 2019: ₹ 1,218,844.01 lakhs {comprising business loss of ₹ 1,013,653.26 lakhs (March 31, 2019: ₹ 1,044,473.78 lakhs) and capital losses of ₹ 1,52,419.88 lakhs (March 31, 2019: ₹ 174,370.23 lakhs)} that are available for offsetting for eight years against further taxable profits. Majority of these losses will expire between March 2025 to March 2027. Based upon margin from sale of existing projects, profit from launch of new projects in near future and planned reduction in interest cost & overheads in future, Company believes there is reasonable certainty that deferred tax asset will be recovered.
- (iii) In the previous years, the Company has not recognised deferred tax asset in respect of losses (including capital losses) of ₹ 185,669.66 lakhs (31 March 2019: ₹ 207,620.01 lakhs) as there is no reasonable certainty supported by convincing evidences of their recoverability in the near future. If the Company was also to recognise all unrecognised deferred tax assets, the profit would increase by ₹ 43,876.04 lakhs (31 March 2019: ₹ 52,260.16 lakhs).
- (iv) This refers to the deferred tax asset amounting to ₹ 212,786.24 lakhs recognised on reversal of margin from retained earnings as of 1 April 2018 on account of adoption of Ind AS 115.

17A. NATURE AND PURPOSE OF RESERVES

Capital reserve

Capital reserve was created under the previous GAAP (Indian GAAP) out of the profit earned from a specific transaction of capital nature. Capital reserve is not available for the distribution to the shareholders.

Capital redemption reserve

The same has been created in accordance with provision of the Act with respect to buy back of equity shares from the market in earlier years.

Securities premium

Securities premium includes premium on issue of shares and issue of shares through conversion of compulsorily convertible debentures. It will be utilised in accordance with the provisions of the Companies Act, 2013.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013

Forfeiture of shares

This reserve was created on forfeiture of shares by the Company. The reserve is not available for distribution to the shareholders.

Equity component of compulsorily convertible debentures

The Company had issued compulsorily convertible debentures (CCDs) having coupon rate of 0.01%. This being compound financial instrument and accordingly represents equity component of CCDs on split of compound financial instrument. During the year, 130,000,000 (31 March 2019: 249,746,836) equity shares have been issued by converting equal number of Compulsorily Convertible Debentures ("CCDs") of ₹ 2/- each at premium of ₹ 215.25 each (refer note 61(b)).

Debenture redemption reserve (DRR)

The Company has issued redeemable non-convertible debentures. In terms of the provisions of Section 76 read with Rule 18(7)(b)(iii)(B) of the Companies (Share Capital and Debentures) Rules, 2014, Debenture Redemption Reserve is not required for privately placed debentures by listed Companies. Accordingly, for debentures issued post applicability of amended rules, no Debenture Redemption Reserve

is being created. However, for debentures issued prior to the amendment, the Company has created Debenture Redemption Reserve for an amount equal to 25% of the value of debentures due for redemption.

FVOCI equity investments

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVOCI equity investments reserve within equity.

36. EARNINGS PER EQUITY SHARE

Earnings per Share ("EPS") is determined based on the net profit attributable to the shareholders of the Company. Basic earnings per share is computed using the weighted-average number of shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity shareholders (after adjusting for interest on the compulsorily convertible debentures) by the weighted-average number of Equity share outstanding during the year plus the weighted number of Equity shares that would be issued on conversion of all the dilutive potential equity share into equity shares.

** These financial assets are mandatorily measured at fair value.

(ii) Fair values hierarchy

Financial assets and financial liabilities are measured at fair value in the financial statement and are grouped into three Levels of fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

(iv) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- (a) the use of net asset value for mutual funds on the basis of the statement received from investee party.
- (b) the use of adjusted net asset value method for certain equity investment and discounted cash flow method (income approach) for remaining equity instruments.
- (c) The Company has used interest rate and USD/ INR swap rate as inputs to arrive at fair value of derivative assets.

(v) The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements. See (iv) above for the valuation techniques adopted.

38 FINANCIAL RISK MANAGEMENT

The Company's principal financial liabilities comprise of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, derivative assets and cash and cash equivalents that derive directly from its operations.

(i) Risk Management objectives and policies

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company under a financial instrument or customer contract leading to a financial loss. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other

counterparties and incorporates this information into its credit risk controls. Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits. Other financial assets measured at amortized cost includes loans to employees, security deposits and other credit risk related to other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

a) Credit risk management

i) Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

The Company provides for expected credit loss based on the following:

Asset Company	Basis of categorisation	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances, investments, loans, trade receivables and other financial assets	12 months expected credit loss/ lifetime expected credit loss
Moderate credit risk	Loans and other financial assets	12 months expected credit loss
High credit risk	Loans and other financial assets	12 months expected credit loss/ lifetime expected credit loss

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written-off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written-off and attempts to enforce repayment. Recoveries made are recognised in statement of profit and loss.

In respect of trade receivables, the Company recognises provision for lifetime expected credit loss.

Expected credit loss for trade receivables under simplified approach

The Company's trade receivables in respect of projects does not have any expected credit loss as registry of properties sold is generally carried out once the Company receives the entire payment. During the periods presented, the Company made ₹ 2,091.34 lakhs (31 March 2019: 1,865.18 lakhs) provision towards interest received from customers. In respect of other trade receivables, the Company considers provision for lifetime expected credit loss. Given the nature of business operations, the Company's trade receivables has low credit risk as the Company holds security deposits equivalents ranging from three to six months rentals. Further historical trends indicate any shortfall between such deposits held by the Company and amounts due from customers have been negligible.

C) Market Risk

a) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of the change in foreign currency exchange rates. The Company has international transactions and is exposed to foreign exchange risk arising from foreign currency transactions. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency.

(₹ in lakhs)

Foreign currency risk exposure			
Particulars	Currency	31 March 2020	31 March 2019
Financial liabilities			
Foreign currency loan (including finance cost accrued)	USD	97,397.27	135,867.76

The Company manages its foreign currency risk by hedging transactions. The Company has taken forward contract to hedge its cash flows related to foreign currency transactions covering the entire duration of the foreign currency loan. As at 31 March 2020, the Company hedged 100% of its foreign currency borrowings.

The Company's exposure to foreign currency changes for unhedged transactions are not material, therefore not disclosed.

Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
USD sensitivity		
INR/ USD - increase by 5% (31 March 2019: 5%)	4,869.86	6,744.20
INR/ USD - decrease by 5% (31 March 2019: 5%)	(4,869.86)	(6,744.20)

The sensitivity of profit or loss to changes in the exchange rates arises mainly from forward contract taken to hedge foreign currency denominated financial liabilities which is described below:

(₹ in lakhs)

Particulars (Derivative Asset)	Currency	31 March 2020	31 March 2019
Increase by 5% (31 March 2019: 5%)	USD	898.64	645.34
Decrease by 5% (31 March 2019: 5%)	USD	(898.64)	(645.34)

b) Interest rate risk

i) Liabilities

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings keeping in view of current market scenario.

Notes to the Standalone Financial Statements (Contd.)

Interest rate risk exposure

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Variable rate borrowing	479,100.31	362,238.78
Fixed rate borrowing	133,208.01	68,736.11
Total borrowings	612,308.32	430,974.89

Sensitivity

Profit or loss and equity is sensitive to higher/ lower interest expense from borrowings as a result of changes in interest rates.

(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Interest sensitivity		
Increase by 1% (31 March 2019: 1%)	4,791.00	3,622.39
Decrease by 1% (31 March 2019: 1%)	(4,791.00)	(3,622.39)

ii) Assets

The company's fixed deposits, interest bearing security deposits and loans are carried at fixed rate. Therefore, the said assets are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

c) Price risk

The Company's exposure to price risk arises from investments held and classified as FVTPL and FVOCI. To manage the price risk arising from investments in mutual funds, the Company diversifies its portfolio of assets.

Sensitivity analysis

Profit or loss and equity is sensitive to higher/ lower prices of instruments on the Company's profit for the periods:

(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Price sensitivity		
Increase by 5% (31 March 2019: 5%) - FVTPL	502.03	-
Decrease by 5% (31 March 2019: 5%) - FVTPL	(502.03)	-
Fair value sensitivity

Decrease by 5% (31 March 2019: 5%) - FVOCI	(19.14)	(23.86)
Increase by 5% (31 March 2019: 5%) - FVTPL	487.51	435.58
Decrease by 5% (31 March 2019: 5%) - FVTPL	(487.51)	(435.58)

d) Legal, taxation and accounting risk

DLF is presently involved into various judicial, administrative, regulatory and litigation proceedings concerning matters arising in the ordinary course of business operations including but not limited to personal injury claims, landlord-tenant disputes, commercials disputes, tax disputes, employment disputes and other contractual disputes. Many of these proceedings seek an indeterminate amount of damages. In Situations where management believes that a loss arising from a proceeding is probable and can reasonably be estimated, DLF records the amount of the probable loss. As additional information becomes available, any potential liability related to these proceedings is assessed and the estimates are revised, if necessary.

To mitigate these risks, DLF employs in-house counsel and uses third party tax & legal experts to assist in structuring significant transactions and contracts. DLF also has systems and controls that ensure the timely delivery of financial information in order to meet contractual and regulatory requirements and has implemented disclosure controls and Internal controls over financial reporting which are tested for effectiveness on an ongoing basis.

Change to any of the above laws, rules, regulations related to DLF Business could have a material impact on its financial results. Compliance with any proposed changes could also result in significant cost for DLF. Failure to fully comply with various laws, rules and regulations may expose DLF to proceedings which may materially affect its performance.

39. CAPITAL MANAGEMENT

The purpose of the Company's capital management is:

- Maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital on the basis of the carrying amount of equity and net debt (adjusted for cash and cash equivalents) as presented on the face of balance sheet.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

41. The Company has entered into business development agreements with certain entities for acquisition of sole irrevocable development rights in identified land which are acquired/ or in the advanced stages of being acquired by these entities.

In terms of accounting policy stated in Note 2.2(g) the amount paid to these entities pursuant to the above agreements for acquiring development rights are classified under inventory as development rights.

Notes to the Standalone Financial Statements (Contd.)

42. TAX RATE CHANGE

Pursuant to introduction of new tax regime as introduced by the Taxation Laws (Amendment) Act, 2019 which provides an option to the Company for paying Income Tax at reduced rates as per the provisions/ conditions defined in the newly inserted Section 115BAA in the Income-tax Act, 1961. The Company has exercised the option to adopt lower tax rate, consequently the Company has applied the lower income tax rates on the deferred tax assets/ liabilities to the extent these are expected to be realized or settled in the future period when the Company may be subjected to lower tax rate. This has resulted in reversal of net deferred tax asset amounting to ₹ 1,14,494.03 lakhs (refer note 35).

43. EMPLOYEE BENEFIT OBLIGATIONS

a) Provident fund

The Company offer its employees, benefits under defined benefit plans in the form of provident fund scheme which cover all its group employees. The provident fund trust set-up by the Company is treated as a defined benefit plan since the Company has to meet the interest shortfalls, if any. Both the employees and the Company pay predetermined contributions in the trust. Contribution made by the Company to the provident funds trust during the year is ₹ 601.14 lakhs (31 March 2019: ₹ 516.13 lakhs). In this regard, actuarial valuation as on 31 March 2020 was carried out to measure the obligation using projected unit credit method arising due to interest rate guarantee by the Company towards provident fund. In terms of said valuation the Company has no liability towards interest rate guarantee as on 31 March 2020.

The details of fund and plan asset position are given below

b) Gratuity plan (non-funded)

The Company has a defined benefit gratuity plan, which is unfunded. The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The weighted-average duration of the defined benefit obligation is 13.25 years (31 March 2019: 12.72 years).

Risks associated with plan provisions

The Company is exposed to number of risks in the defined benefit plans. Most significant risks pertaining to defined benefit plans and management's estimation of the impact of these risks are as follows:

Salary growth risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of the plan participants will increase the plan liability.

Interest rate risk

A decrease in interest rate in future years will increase the plan liability.

Life expectancy risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of mortality of plan participants both during and at the end of the employment. An increase in the life expectancy of the plan participants will increase the plan liability.

Withdrawals Risk

Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact the plan liability.

	Others (Joint Ventures, KMPs Entities & Others)	198,029.34	153,897.84

- 1) The Income Tax Authorities had made disallowances of SEZ profits u/ s 80IAB of the Income-tax Act, 1961 during tax assessment of the Company raising demands amounting to ₹ 109.00 lakhs for the assessment year 2015-16: ₹ 1,056.00 lakhs for the assessment year 2014-15: ₹ 6,834.00 lakhs for the assessment year 2013-14: ₹ 7,308.99 lakhs for the assessment year 2011-12: ₹ 7,284.99 lakhs for the assessment year 2010-11: ₹ 35,523.71 lakhs for the assessment year 2009-10 and ₹ 48,723.00 lakhs for assessment year 2008-09 respectively.

The Company had filed appeals before the appropriate appellate authorities against these demands for the said assessment years. In certain cases partial/ full relief has been granted by the Appellate Authorities. The Company and Income Tax Department have further preferred appeals before the higher authorities in those cases.

- 2) Other than matter mentioned in point no. 1 above, the Income Tax Authorities have raised demands on account of various disallowances pertaining to different assessment years. The Company is contesting these demands, which are pending at various appellate levels.

Based on the advice from independent tax experts and the development on the appeals, the management is confident that additional tax so demanded as mentioned in point 1) and 2) above will not be sustained on completion of the appellate proceedings and accordingly, pending the decision by the appellate authorities, no provision has been made in these standalone financial statements.

- 3) There are various disputes pending with the authorities of excise, customs, service tax, sales tax, VAT etc. The Company is contesting these demands raised by authorities and are pending at various appellate authorities.

Based on the grounds of the appeals and advice of the independent legal counsels, the management believes that there is a reasonably strong likelihood of succeeding before the various authorities. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- 4) There are various litigations going on against the Company primarily by Competition Commission of India and in Consumer Redressal Forum, which have been contested by the Company.

Based on the grounds of the appeals and advice of the independent legal counsels, the management believes that there is a reasonably strong likelihood of succeeding before the various authorities. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- 5) Interest and claims by customers/ suppliers may be payable as and when the outcome of the related matters are finally determined and hence not been included above.

Management based on legal advice and historical trends, believes that no material liability will devolve on the Company in respect of these matters.

6) Indemnification of DCCDL

- a) As per the terms of the SPSHA, the Company has undertaken to indemnify, defend and hold harmless the Investor against all losses incurred or suffered by DCCDL arising out of following matters up to or prior to 25 December 2017 (i.e. Closing Date):

- i) Income tax demands related to various matters and assessments year up to the closing date of ₹ 88,821.99 lakhs (31 March 2019: ₹ 154,590.45 lakhs);
- ii) Indirect tax demands including service tax and entry tax related to various matters and financial years up to the closing date of ₹ 24,720.77 lakhs (31 March 2019: ₹ 20,819.36 lakhs);
- iii) During the previous years, DLF Utilities Limited (“DUL”) had received a notice from the Dakshin Haryana Biji Vitran Nigam (“DHBVN”) wherein it had claimed cross subsidy surcharge of ₹ 3,328.00 lakhs on electricity being supplied by DUL to other companies for the period from 1 April 2011 to 30 September 2012 and had questioned the legality of such electricity supply. DUL filed an appeal to Haryana Electricity Regulatory Commission (“HERC”), wherein HERC vide order dated 11 August 2011 held that the supply of electricity by DUL was legal, however, DUL was liable to pay cross subsidy surcharge. Aggrieved by the said order, DUL filed an appeal before Appellate Tribunal of Electricity (“APTEL”) against the levy of cross subsidy surcharge. APTEL held that the supply of electricity for commercial establishments from the main receiving panel was not in accordance with law and must be discontinued.

Further, APTEL also held that the Company was liable to pay the cross subsidy surcharge and accordingly, a demand of ₹ 3,328.00 lakhs was received by DUL from DHBVN against the same. Aggrieved by the order of APTEL, DUL filed an appeal before the Hon’ble Supreme Court of India who has stayed the execution of the said order and asked DUL to deposit an amount of ₹ 284.36 lakhs to DHBVN which has been duly deposited.

Based on the advice of the independent legal counsel, the management believes that there is a reasonably strong likelihood of succeeding before the Hon’ble Supreme Court of India and accordingly no adjustment is required to be made in these financial statements at this stage.

- iv) The land parcel admeasuring 19.5 acres was acquired by the Company from Government of Haryana (‘GoH’) in August, 2006 for development of Cyber City Project, which was earlier acquired by GoH from Gram Panchayat, Nathupur on February, 2004 through proceedings of compulsory acquisition. DCCDL had constructed certain portions of its two IT/ IT SEZ buildings of the Cyber City Project as well as entered into third party rights vide lease/ sale of office space in the said buildings. Subsequently, the Hon’ble High Court of Punjab and Haryana, pursuant to a public interest litigation, vide order dated 1 October 2010, quashed the land acquisition proceedings and conveyance deed by GoH and directed the GoH to refund the amount, which was earlier paid by the Company and also directed the Company to remove any construction on the said land. Against the said order, the Company filed a Special Leave Petition in November 2010 before the Hon’ble Supreme Court of India, who vide order dated 3 January 2012, stayed the order of the High Court and the matter is pending disposal before the Supreme Court of India.

Based on the advice of the independent legal counsel, the management believes that there is strong likelihood of succeeding before the Hon’ble Supreme Court of India.

- v) The Company along with its subsidiaries had acquired a land parcel admeasuring approximately 30 acres and 7 acres respectively from EIH Limited (‘EIH’) for development of IT/ ITES project at Silokhera, Gurugram, which EIH acquired from GoH. The Company constructed 2 IT/ ITES SEZ Buildings on the said land, which was sold to one of the subsidiary companies of the DCCDL. The Company is constructing another block of buildings on the DCCDL’s behalf. The Net Block and Capital Work-in-Progress against Silokhera project appearing in DCCDL’s books as at 31 March 2020 amounts to ₹ 157,016.14 lakhs (gross block of ₹ 187,164.68 lakhs) and ₹ 88,911.05 lakhs, respectively.

Subsequently, the Hon’ble High Court of Punjab and Haryana, pursuant to a public interest litigation and vide its order dated 3 February 2011 directed the GoH to carry out the acquisition proceedings again from the notification stage under the Land Acquisition Act, 1894 and directed the Company and its subsidiary to remove all constructions made on the said land. The Company filed a Special Leave Petition before the Hon’ble Supreme Court of India and the Hon’ble Supreme Court of India vide order dated 20 September 2011 stayed the order of the Hon’ble High Court and the matter is currently pending before the Hon’ble Supreme Court of India and the next date of hearing is yet to be notified by the registry.

Based on the advice of the independent legal counsel, the management believes that there is a strong likelihood of succeeding before the Hon’ble Supreme Court of India. Pending the final decision on the above matter, no further adjustment has been made in these financial statements.

Notes to the Standalone Financial Statements (Contd.)

- b) During the year, the company along with its subsidiary company have sold their respective stakes in DLF Info Park Developers (Chennai) Limited to DCCDL. As per the terms of these agreements, based on some contingent events, DCCDL has been granted a Put Option to transfer these securities to the Company, exercisable at Fair Value. Further, the Company along with the aforesaid subsidiary has also indemnified DCCDL for delay in achieving certain milestones beyond the agreed timelines. The management has evaluated these and does not believe any material liability devolving on the Company.

b) Certain other matters pending in litigation with Courts/ Appellate Authorities

- a) The Competition Commission of India (CCI) on a complaint filed by the Belaire/ Park Place owners association had passed orders dated 12 August 2011 and 29 August 2011 wherein the CCI had imposed a penalty of ₹ 63,000.00 lakhs on DLF Limited ("DLF" or "the Company") or, restraining DLF from formulating and imposing allegedly unfair conditions with buyers in Gurugram and further ordered to suitably modify the alleged unfair conditions on its buyers.

The said orders of CCI were challenged by DLF on several grounds by filing appeals before the Competition Appellate Tribunal (COMPAT). The COMPAT, pending hearing and till final orders had granted stay on demand of penalty of ₹ 63,000.00 lakhs imposed by CCI.

COMPAT vide its order dated 19 May 2014 accepted the arguments of DLF that since the agreements were entered into prior to coming into force of Section 4 of the Competition Act, the clauses of the agreements entered in 2006-07 could not be looked into for establishing contravention of Section 4 of the Competition Act, 2002 however COMPAT held that the Company is a dominant player in Gurugram being the relevant market and has abused its dominant position in relation to certain actions which is violative of Section 4 of the Competition Act, 2002 and has accordingly upheld the penalty imposed by CCI.

The Company has filed an appeal in the Hon'ble Supreme Court of India against the order dated 19 May 2014 passed by the COMPAT. The Hon'ble Supreme Court of India vide order dated 27 August 2014 admitted the appeal and directed the Company to deposit penalty of ₹ 63,000.00 lakhs in the Court.

In compliance of the order, the Company has deposited ₹ 63,000.00 lakhs with the Hon'ble Supreme Court of India.

The appeals will be listed for arguments before Hon'ble Supreme Court of India in due course.

Based on the advice of the independent legal counsels, the management believes that there is a reasonably strong likelihood of succeeding before the Hon'ble Supreme Court of India. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- b) During the year ended 31 March 2011, the Company received judgments from the Hon'ble High Court of Punjab and Haryana cancelling the sale deeds of land relating to IT SEZ/ IT Park Project in Gurugram admeasuring 49.05 acres. The Company filed Special Leave petitions (SLPs) challenging the orders in the Hon'ble Supreme Court of India.

The Hon'ble Supreme Court of India has admitted the matters and stayed the operation of the impugned judgments till further orders.

Based on the advice of the independent legal counsels, the management believes that there is a reasonably strong likelihood of succeeding before the Hon'ble Supreme Court of India. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- c) (i) The Securities and Exchange Board of India ('SEBI') had issued a Show Cause Notice (SCN) dated 25 June 2013 under Sections 11(1), 11(4), 11A and 11B of the SEBI Act, 1992 ('the SEBI Act') read with Clause 17.1 of the SEBI (Disclosure & Investor Protection) Guidelines, 2000 ('DIP Guidelines') and Regulation 111 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009 ('ICDR Regulations') inter-alia alleging that the Company, some of its directors and its erstwhile Chief Financial Officer (CFO) while issuing its Red Herring Prospectus and Prospectus in 2007, had failed to ensure that the Offer Documents contained all material information which is true and correct, to enable the investors to make an informed investment decision in the Issue and actively and knowingly suppressed several material information and facts in the Offer Documents, leading to misstatements in the Offer Documents so as to mislead and defraud the investors in securities market in connection with the issuance of securities.

The Company filed its Reply to the aforesaid SCN denying the allegations contained therein. The Company participated in the personal hearings before the Hon'ble Whole Time Member of SEBI and thereafter filed written submissions in support of its case.

The Hon'ble Whole Time Member of SEBI however did not find favour with the position espoused by the Company and vide order dated 10 October 2014 restrained the Company, certain directors and its erstwhile CFO from accessing the securities market and prohibited them from buying, selling or otherwise dealing in securities, directly or indirectly, in any manner, whatsoever, for a period of three years.

The Company and other persons aggrieved by the order dated 10 October 2014 filed appeals before the Hon'ble Securities Appellate Tribunal ('Hon'ble SAT'), which vide majority order dated 13 March 2015 allowed all the appeals and the order dated 10 October 2014 passed by SEBI was quashed and set aside.

Assailing the Hon'ble SAT's order dated 13 March 2015, SEBI filed a statutory appeal under Section 15Z of the SEBI Act against the Company before the Hon'ble Supreme Court of India. One of the petitioners, who had sought to intervene in

the Company's appeal before the Hon'ble SAT, also filed an appeal before the Hon'ble Supreme Court of India against the SAT Order dated 13 March 2015. On 24 April 2015, the Hon'ble Supreme Court of India admitted the appeals filed by SEBI and the petitioner against the Company and issued notice on interim application. No stay has been granted by the Hon'ble Supreme Court of India in favour of SEBI and petitioner.

In October 2015, SEBI filed applications before the Hon'ble Supreme Court in some of the pending civil appeals seeking, inter alia, restraint on the Company, its promoters and/ or directors from proceeding with the sale of 15,96,99,999 Cumulative Compulsorily Convertible Preference Shares of DLF Cyber City Developers Limited held by the promoter group companies to third party institutional investors ('the Transaction'). The petitioner also filed applications seeking interim reliefs in relation to the Transaction. The said applications came up for hearing before the Hon'ble Supreme Court on 4 November 2015. After hearing the counsels appearing for the parties, the Hon'ble Supreme Court did not pass any orders restraining the Transaction and simply directed that the said applications be listed along with the appeals.

In July 2018, the petitioner filed an application in the appeal filed by him seeking permission to place additional facts and documents on record. In May 2019, the petitioner has filed an application in the appeal filed by him seeking certain directions against the Company w.r.t. amounts raised in the IPP/ QIP of 2013 and 2019. These applications, however, have not come up before the Hon'ble Supreme Court of India for hearing.

- ii) SEBI issued a SCN dated 28 August 2013 under Sections 15HA and 15HB of the SEBI Act and under Rule 4 of the SEBI (Procedure for Holding Inquiry and Imposing Penalties by Adjudicating Officer) Rules, 1995 ('Adjudication Rules') making allegations similar to the SCN dated 25 June 2013. The Company filed its Reply to the same opposing the allegations made against it. Similar SCNs were also issued to three subsidiaries, their directors and certain other entities.

By way of order dated 26 February 2015, the Adjudicating Officer, SEBI imposed monetary penalties upon Company, some of its Directors, its erstwhile CFO, its three subsidiaries and their Directors under Section 15HA and under Section 15HB of the SEBI Act.

The Company and other parties aggrieved by the aforesaid order filed appeals before the Hon'ble SAT against the aforesaid order dated 26 February 2015. When these appeals were listed before Hon'ble SAT on 15 April 2015, SEBI's counsel under instructions stated that during the pendency of the said appeals, the Order dated 26 February 2015 would not be enforced. The Hon'ble SAT vide its order passed on 25 April 2018 held that in view of Hon'ble SAT's majority decision dated 13 March 2015, the SEBI Order dated 26 February 2015 cannot be sustained.

Accordingly, the Hon'ble SAT disposed off the appeals, along with an application for intervention filed by the petitioner with a direction that these appeals as well as the intervention application, shall stand automatically revived once the Hon'ble Supreme Court disposes of the civil appeals filed by SEBI against the Hon'ble SAT's judgment dated 13 March 2015.

Based on the advice of the independent legal counsel, management believes that there is reasonable strong likelihood of succeeding. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- d) The petitions were filed before the Hon'ble Punjab & Haryana High Court challenging the action of the Haryana Government to acquire the land belonging to Gram Panchayat of village Wazirabad, District Gurugram for public purpose and thereafter selling the same to the Company, seeking directions from the court for quashing of the acquisition proceedings under Sections 4 & 6 dated 8 August 2003 and 20 January 2004.

The petitioners therein also sought quashing of the award dated 19 January 2006 and the regular letter of allotment (RLA) dated 9 February 2010 issued in favour of the Company for 350.715 acres of land. The Company has paid ₹ 99,969.26 lakhs to government towards purchase of this land out of total consideration of ₹ 182,437.49 lakhs.

The Hon'ble Punjab & Haryana High Court, vide its final order dated 3 September 2014, while upholding the acquisition of land has however disapproved the allotment in favour of the Company. The Hon'ble High Court passed an order to keep the RLA dated 9 February 2010 issued in favour of the Company in abeyance and further directed the Haryana State Industrial and Infrastructure Development Corporation (HSIIDC) to initiate fresh allotment process for higher returns in respect of the land in question with an option to State to revive the RLA in case no better bid is quoted by the public at large.

The Company has filed a Special Leave Petition before the Hon'ble Supreme Court of India challenging the judgment dated 3 September 2014 passed by the Hon'ble Punjab & Haryana High Court. The Hon'ble Supreme Court of India issued notice to the respondents and directed status quo to be maintained by the parties.

Based on the advice of the independent legal counsels, the management believes that there is a reasonably strong likelihood of succeeding before the Hon'ble Supreme Court of India. Pending the final decisions on the above matter, no adjustment has been made in these standalone financial statements.

- e) DLF has filed a Special Leave Petition (SLP) against the order dated 2.12.2016 passed by the Hon'ble Punjab & Haryana High Court in Writ Petition No.12210 of 2013 challenging the findings and directions passed by the Hon'ble High Court requiring DLF to allocate additional land measuring 10.6 Acres for DLF Park Place complex. DLF has taken the ground

Notes to the Standalone Financial Statements (Contd.)

that after having rejected the contentions of the association on the claim of extra land based on FAR and PPA norms, the Hon'ble High Court could not have passed the order for allocation of additional land based on the representations made in the Brochure. DLF has further raised the ground that Hon'ble High Court has given a complete go by to the terms and conditions of the binding agreement where it was specifically provided the area of Park Place as 12.67 acres granted leave in the Special Leave Petition.

Against the same order, DLF Park Place Residents Welfare Association has also filed an SLP before the Supreme Court on the grounds that the High Court has misinterpreted the statutory provisions of the applicable law to hold that GH Park Place is not a separate and independent Company Housing Complex but is part of DLF Phase-V constructed over 476.42 Acres having 15 Company Housing Complexes. In accordance with the FAR ratio of 1:1.75, the association was entitled to additional land of 46.20 Acres on the total constructed area which has not been considered by the Hon'ble High Court.

The Court after hearing, granted leave in the SLPs. The appeals will be listed for arguments before Hon'ble Supreme Court of India in due course.

Based on the advice of the independent legal counsels, the management believes that there is reasonably strong likelihood of succeeding before the Hon'ble Supreme Court of India. Pending the final decisions on the above matter, no adjustments has been made in these financial statements.
