

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management’s views on the Company’s Performance and outlook are discussed below:

Economic Outlook:

Growth in advanced economies is forecast to decelerate toward potential rates as monetary policy is normalized and the effects of U.S. fiscal stimulus wane. In emerging market and developing economies (EMDEs), growth in commodity importers will remain strong, while the rebound in commodity exporters is projected to mature over the next two years. While well below levels expected a decade ago, these forecasts also remain above potential growth estimates. Moreover, risks to the outlook are tilted to the downside. They include disorderly financial market movements, escalating trade protectionism, and heightened geopolitical tensions. EMDE policymakers should rebuild monetary and fiscal policy buffers and be prepared for rising global interest rates and possible episodes of financial market turbulence. In the longer run, adverse structural forces continue to overshadow long-term growth prospects implying that EMDEs need to boost potential growth by promoting competitiveness, adaptability to technological change, and trade openness. These steps will help mitigate an expected growth slowdown over the next decade, especially if long term growth forecasts fall once again short of expectations. Rapid Growth among the major emerging markets over the past 20 years has boosted global demand for commodities. The seven largest emerging markets (EM7) accounted for almost all of the increase in global consumption of metals and two-thirds of the increase in energy consumption over this period. As these economies mature and shift towards less commodity- intensive activities, their demand for most commodities may level off.

Indian Economy

A normalization in cash conditions following the demonetization of late 2016 and the fading of disruptions from last year’s launch of the Goods and Services Tax should facilitate the economic recovery in FY 2018. Nonetheless, risks of fiscal slippage in the run-up to elections next year, concerns over India’s banking sector, increasing global trade tensions and higher oil prices all cloud prospects.

Industry Structure and Developments

The Company has qualitative employees which have contributed in overall output of the company. However, it is also true that we have not seen concomitant credit growth, which remained at its lowest level in many years. Thanks to lack of overall demand, capital investments by the corporate sector continued to remain sluggish. Despite favorable liquidity conditions and lower interest rates, banks have found it difficult to increase lending as they have struggled with large non-performing assets (NPAs) from their loan books. Moreover, a second consecutive year of poor monsoons, weakening currency and falling exports due to deflationary conditions in many importing countries dampened economic sentiments.

Industry Structure and Developments

The bullion reserve of a country is the indicator of the amount of wealth a country possesses. Bullion is defined as a bulk quantity of precious metals consisting of gold, silver and others that can be assessed by weight and cast as a lump. Bullion is valued by its purity and mass rather than its face value which is applicable in the case of money. India Bullion Market is a recognizable index that highlights the economic growth of the nation.

<ul style="list-style-type: none"> • A well-defined and scalable organization structure • Experienced and stable management team • The Company’s biggest strength is its trained manpower and team back up by promoter Director. Which enables Smooth Conduct of operation 	<ul style="list-style-type: none"> • Limited geographical coverage. • Dependent upon growth in stock market and overall fiscal growth. 	<ul style="list-style-type: none"> • Economic slowdown • Increasing competition • Capital Market Slowdown
Our Strategy		
❖ Expansion of existing activities	❖ Financial Management/Advisory Services	❖ Differentiated Services

Risk and Concerns

The very nature of the Company's business makes it susceptible to various kinds of risks. The Company encounters market risk, credit risk and operational risks in its daily business operations. The Company has framed a comprehensive Risk Management Manual which inter- alia lays down detailed process and policies in the various facets of risk management function. The risk management review framework provides complete oversight to various risk management practices and process. The framework and assessment remains dynamic and aligns with the continuing requirements and demands of the market. The Company has also implemented surveillance mechanism to deal with various trades related risks and adopted a surveillance policy in line with the regulatory requirements.

Internal Financial Control Systems and their adequacy:

Internal Control system and adequacy Internal Control measures and systems are established to ensure the correctness of the transactions and safe guarding of the assets. Thus, internal control is an integral component of risk management. The Internal control checks and internal audit programmers adopted by our Company plays an important role in the risk management feedback loop, in which the information generated in the internal control process is reported back to the Board and Management. The internal control systems are modified continuously to meet the dynamic change. Further the Audit Committee of the Board of Directors reviews the internal audit reports and the adequacy and effectiveness of internal controls.

Human Resource

Equipping the Company with an engaged and productive workforce is essential to our success. We look for commitment, skills and innovative approach in people. In assessing capability, we consider technical skills and knowledge that have been acquired through experience and practice, along with mental processing ability, social process skills and their application.

We continue to invest in developing a pipeline of future talent and nurture them. As part of this process, we provide development and training opportunities to our workforce, which motivates and encourages them to grow in their work.

Cautionary Statement

This report contains statements that may be "forward looking" including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to Company's future business developments and economic performance. While these forward looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to, general market, macroeconomic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance. Company undertakes no obligation to publicly revise any forward looking statements to reflect future/likely events or circumstances.
