

## CHAIRMAN'S WORDS

B. G. Bangur | Chairman

All actions at Shree remain anchored in fulfilling our shared vision of "Lead in creating prosperity and happiness for all stakeholders through innovation and sustainable practices". This shared vision keeps all of us grounded to our roots and our purposes.

We acknowledge the immense power inside a tiny seed when we witness its transformation into a gigantic tree. This seed has fought its way out overcoming nature's obstacles in its path to become one giant that touches skies.

An enterprise also starts its journey in form of a tiny seed. It is sowed as an idea which gradually grows into a colossal institution crossing all barriers in its path to touch the echelons of success. All this is made possible on the back of consistent hard work, innovation and perseverance of its members. Like this, four decades back, Shree Cement was also once just a tiny seed.

Over these years, Shree has leveraged interdependencies of technology, processes and people to deliver best-in-class products. Our teams constantly research, experiment, innovate and persevere to optimise everything that they do. Our operations branch out across the breadth of India to widen its reach. We have maximised creation of value and share it equitably amongst our universe of stakeholders. All actions at Shree remain anchored in fulfilling our shared vision of "Lead in creating prosperity and happiness for all stakeholders through innovation and sustainable practices". This shared vision keeps all of us grounded to our roots and our purposes.

The history of human race demonstrates that severe storms of different kind have tried to rock the boat of human progress, time and again. But the resilience of human spirit and collaboration led innovative solutions have helped it sail through these storms. The present COVID-19 health challenge is one such storms the world is facing today. At Shree Cement, we have taken utmost care to ensure that we not only stay safe ourselves, but also be a part of government's mission to collectively defeat this common enemy. Overcoming this challenge may take some time, but collectively we all shall overcome it for sure.

Despite the challenges, we are committed to put our best foot forward for continued and sustained value creation for our stakeholders.
