EXPLANATORY STATEMENT

As required by Section 102 of the Companies Act, 2013 (the Act), the following Explanatory Statement sets out all material facts relating to the businesses mentioned under Item Numbers 3, 4, 5, 6, 7, 8 and 9 of the accompanying Notice dated 26th May, 2025.

Item Number - 3

The Board of Directors at its meeting held on 26th May, 2025 based on the recommendation of Nomination and Remuneration Committee, approved the appointment of Mrs. Archana S Yadav as an Additional Director in the category of an Independent of the Company for a first term of five consecutive years, not liable to retire by rotation, with effect from 26th May, 2025 subject to approval by the Members of the Company at the ensuing AGM.

While considering the appointment of Mrs. Archana S Yadav, the Board considered and noted the upcoming retirement of existing Independent Director i.e. Ms. Dhara Shah who is due to retire on 3rd August, 2025 (at the close of business hours) upon completion of her second term as an Independent Director.

The Board deliberates on various factors including current tenure of board members, anticipated vacancies in key board positions, skill matrix including skill-gaps, diversity, time-commitment and statutory requirements etc. The appointment of Mrs. Archana S Yadav has been made by the Board to address the long-term requirement of the Company and to ensure smooth transition in key board positions.

Pursuant to the provisions of Section 161(1) of the Act, Ms. Archana Yadav holds the office as Additional Director till the date of the ensuing 46th Annual General Meeting (AGM) scheduled on 1st August, 2025.

As per Regulations 17(1C) read with 25 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, (the SEBI Listing Regulations), approval of the Members for appointment or re-appointment of a person on the Board of Directors is required to be taken at the next general meeting or within a period of three months from the date of appointment or re-appointment, whichever is earlier by way of Special Resolution.

Provided that due to expiration of the term of office of any director, the resulting vacancy shall be filled not later than the date such office is vacated.

The Company has received a notice from a Member proposing the candidature of Mrs. Archana S Yadav as the candidate for the office of Independent Director of the Company as per the provisions of the Act.

Mrs. Archana S Yadav has confirmed her eligibility for appointment as Independent Director of the Company under Section 164 of the Act and she has given her consent to act as Independent Director. The Company has received declaration from her confirming that she meets the criteria of independence as prescribed under the Act and the SEBI Listing Regulations.

In terms of Regulation 25(8) of the SEBI Listing Regulations, she has confirmed that she is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties and she is neither disqualified from being appointed as a Director in terms of Act, not debarred from holding the office of director by virtue of any SEBI order or any other such authority and has successfully registered themselves in the Independent Director's data bank maintained by Indian Institute of Corporate Affairs.

Further, she has also confirmed that she had not been a partner of a firm that had transactions during last three financial years with the Company or its subsidiaries amounting to ten percent or more of its gross turnover.

Mrs. Archana S Yadav is a qualified Chartered Accountant from the Institute of Chartered Accountants of India (ICAI), having qualified in 2004. She also holds a Post Graduate Diploma in Business Management (PGDBM) from the Xavier Institute of Management, Bhubaneswar and has completed the ISA-ET and PGCBM (MBA) programs. Further, she has successfully cleared the Forensic Audit and Fraud Detection Course conducted by ICAI in January 2017.

Lyka Labs Limited

She is a practicing Chartered Accountant with nearly two decades of professional experience spanning Direct and Indirect Taxation, International Taxation, Finance and Accounts, Auditing, Cash Management, and Management Information Systems (MIS). Mrs. Archana S Yadav has also been appointed as a GST faculty by ICAI, contributing to knowledge sharing and training initiatives across India.

Mrs. Archana S Yadav holds Nil equity shares in the Company. A copy of the draft letter for appointment for Independent Director, setting out the terms and conditions for appointment of Independent Director will be available electronically (scanned copy) for inspection without any fee by the Members during the AGM. Members seeking to inspect such document can send an email to companysecretary@lykalabs.com by mentioning name and Folio number / DPIDE client ID.

Mrs. Archana S Yadav possesses the integrity, expertise, experience and proficiency for appointment as an Independent Woman Director and is a person of high integrity and repute.

In terms of Section 149, 150 and 152 read with Schedule IV and any other applicable provisions, if any of the Act and rules made thereunder and the SEBI Listing Regulations, it is proposed that Mrs. Archana S Yadav be appointed as Independent Director for a term of a first five consecutive years from the original date of her appointment i.e. from 26th May, 2025 upto 25th May, 2030 (both days inclusive).

The Board of the Directors firmly believes that Mrs. Archana S Yadav bring immense value on account of her stature, professional competence and diversified experience and vast knowledge she brings with her would benefit the Company and accordingly, recommends, her appointment, as an Independent Director of the Company for a term of five consecutive years i.e. upto 25th May, 2030.

Accordingly, approval of the Members is sought for the appointment of Mrs. Archana S Yadav as Independent Director.

Item Number -9

The Board of Directors at its meeting held on 26th May, 2025 based on the recommendation of Nomination and Remuneration Committee, *inter alia*, formulated and approved "Lyka Labs Limited - Employees Stock Option Scheme 2025" (Lyka ESOS 2025/ the Scheme) and the detailed terms and conditions thereof, subject to the approval by the Members of the Company at the ensuing Annual General Meeting.

The Company appreciates the critical role its employees play in the organizational growth. The primary objective of this Employees Stock Option Scheme is to attract talent and reward the key employees for their association, dedication and contribution, present and future, to the goals of the Company. The Company intends to use

Lyka Labs Limited

this scheme to attract, retain and motivate key talents working with the Company by way of rewarding their high performance and motivate them to contribute further to the overall corporate growth and profitability. The Company views employees as its most important resource and asset and the employees stock option scheme as a long-term incentive tool that would enable the employees not only to become co-owners but also to create wealth for themselves out of such share ownership in future. To promote the culture of employee ownership, the Company is intending to issue employees stock options under "Lyka Labs Limited – Employees Stock Option Scheme 2025" (Lyka ESOS 2025/ the Scheme) to the Company's eligible employees, key managerial personnel and working whole-time/executive directors (who are not promoters or persons belonging to the promoter group of the Company), as determined, from time to time.

Lyka ESOS 2025 is drawn in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 as amended (SEBI SBEB Regulations) and other applicable laws.

The Scheme will be operated and administered under the superintendence of the Company's Nomination and Remuneration Committee, which is the Committee of the Board of Directors, majority of Members of which Committee are currently Independent Directors. The Nomination and Remuneration Committee will formulate the detailed terms and conditions of the Scheme including but not limited to:

- a. Number of options to be granted to individual employee, and in aggregate;
- b. terms on which the options will vest;
- c. The conditions under which options vested in employees may lapse in case of termination of employment for misconduct;
- d. The exercise period within which an employees should exercise the options granted and lapsing of options granted on failure to exercise the options within the exercise period;
- e. The specified time period within which the employees shall exercise the vested options in the event of resignation of an employee;
- f. Mechanism for direct allotment of shares;
- g. The right of an employee to exercise all the options vested in him at one time or at various points of time within the exercise period;
- h. The procedure for making a fair and reasonable adjustment to the number of options and/or to the exercise price in case of rights issues, bonus issues and other corporate actions;
- i. The grant, vesting and exercise of options in case of employees who are on deputation, long leave, etc.;
- and
- j. Any other related or incidental matters.

As per the provisions of Regulation 6(1) of the SEBI SBEB Regulations, every share-based incentive scheme is required to be approved by the Members of a Company by way of a Special Resolution. In addition, as per the provisions of Section 62(1)(b) of the Act and the rules made thereunder, approval of the Members by way of a Special Resolution is required for issuance of shares under employee stock option schemes.

Disclosure/main features of Lyka ESOS 2025 pursuant to the SEBI SBEB Regulations and the Companies Act, 2013 (the Act) are as under :

(a) Brief description of the Scheme

The Lyka ESOS 2025 provides for grant of stock options to the Company's eligible permanent employees, key managerial personnel and working whole-time/executive directors (who are not promoters or persons belonging to promoter group of the Company), working in India or outside India, as may be permissible under the SEBI SBEB Regulations (hereinafter referred to as 'employees'). Each stock option will be, upon exercise within the exercise period, convertible into one fully paid-up equity share of the Company of the face value of Rs. 10/- each subject to payment of exercise price and satisfaction of any tax obligation arising thereon.

(b) Total number of options to be granted

The total number of Options to be granted shall not exceed 7,00,000 Options. The Options granted are convertible into not more than 7,00,000 equity shares, being not more than 2% of the total paid up equity share capital of the Company, that would be available for allotment upon exercise of options granted to the employees under Lyka ESOS 2025. Each option when exercised would be converted into one equity share of the face value of Rs. 10/- each fully paidup.

In case of any corporate action such as rights issue, bonus issue, merger or sale of any division of the Company, a fair and reasonable adjustment will be made to the options granted. Accordingly, if any additional equity shares are required to be issued by the Company to the option grantees for making such fair and reasonable adjustment, the ceiling of options/ equity shares as aforesaid shall be deemed to increase to the extent of such additional equity shares to be so issued.

(c) Identification of classes of employees entitled to participate in the Lyka ESOS 2025

All permanent employees, key managerial personnel and working whole-time/executive directors (who are not promoters or persons belonging to promoter group of the Company) working in India or outside India, (hereinafter referred to as employees) shall be eligible to participate in this scheme subject to determination or selection by the Nomination and Remuneration Committee/Board.

However, following classes of employees/ directors shall not be eligible under this scheme:

- Independent directors;
- Promoters or persons belonging to promoter group; and
- Director who either himself or through his relative or through any body corporate, directly or indirectly, holds more than 10% (ten percent) of the outstanding equity share capital of the Company.

The class of employees eligible for participating in the scheme shall be determined on the basis of the grade, number of years of service, performance, past contribution and future expected potential contribution to the growth of the organization, role assigned to the employee and such other parameters as may be decided by the Nomination and Remuneration Committee in its sole and absolute discretion, from time to time.

The options granted to an employee will not be transferable to any person and shall not be pledged, hypothecated, mortgaged or otherwise alienated in any manner, whatsoever.

(d) Appraisal Process for determining the eligibility of the employees to Employees Stock Option Scheme

The appraisal process for determining the eligibility of the employee will be specified by the Nomination and Remuneration Committee and will be based on criteria such as the grade of employee, length of service, performance record, contribution to the growth of the organization, expected potential contribution, etc. by the employee and/or by any such criteria that may be determined by the Nomination and Remuneration Committee in its sole and absolute discretion, from time to time.

(e) Requirements of vesting and period of vesting

The options granted shall vest so long as the employee continues to be in the employment of the Company. The Nomination and Remuneration Committee may, at its discretion, lay down certain performance metrics on the achievement of which the granted options would vest and the detailed terms and conditions relating to such performance based vesting and the proportion in which options granted would vest (subject to the minimum and maximum vesting period as specified below).

The vesting period for options granted shall not be earlier than 1 (one) year and shall not be later than 5 (five) years from the date of grant of such options. The exact proportion in which and the exact period over which the options granted would vest would be determined by the Nomination and Remuneration Committee, subject to the minimum vesting period of one year from the date of grant of options.

Provided further that in the event of death or permanent incapacity, the minimum vesting period of One (1) year shall not be applicable and in such instances, the Options shall vest on the date of death or permanent incapacity. All unvested Options on the date of death or permanent incapacity shall vest immediately.

Lyka Labs Limited

Provided further that in case of retirement, all the unvested Options as on the date of retirement would continue to vest in accordance with the original vesting schedules even after the retirement unless otherwise determined by the Committee in accordance with applicable laws.

In case of resignation or termination of employment (other than due to misconduct), unvested options on the date of submission of resignation/ date of termination notice shall stand cancelled with effect from that date.

In case of termination of employment due to misconduct, unless otherwise determined by the Committee, all unvested and vested options shall stand cancelled with effect from the termination date.

In case of any other reason, unless otherwise determined by the Committee, all unvested options on the date of separation shall stand cancelled from that date.

The vesting of Options shall be contingent upon the Employee's continued employment with the Company. The specific Vesting schedule and Vesting Conditions subject to which Vesting would take place would be outlined in the grant letter given to the grantee at the time of grant.

Further, in case of an eligible Employee who has been granted benefits under Lyka ESOS 2025 is deputed or transferred (including resignation in connection with transfer) or a holding company or an associate company of the Company, prior to vesting or exercise, vesting schedule and exercise period to remain same as per the terms of the grant.

The Scheme also provides for vesting in case of disciplinary proceedings and Employees on long leave.

(f) The maximum period within which the options shall be vested

The options granted shall have a vesting period of maximum 5 years and shall vest only on achievement of milestones, in case of performance-based vesting, as would be determined by the Nomination and Remuneration Committee.

(g) The exercise price or pricing formula

The equity shares to be issued upon conversion of options would be issued at a price per equity share (Exercise Price), as the Board/Committee may determine on the date(s) of the grant of option(s) at its sole discretion, which exercise price shall not be at a discount of more than 75% to the latest available closing price of Company's shares on a listed stock exchange where there is highest trading volume in Company shares on a day immediately prior to the date of the meeting of the Board of Directors or committee thereof in which the options are granted.

The difference between the price at which equity shares are allotted upon conversion of the options and the average of the opening and closing price of the Company's shares on the date of the allotment of equity shares on the stock exchange shall be taxed as perquisite in the hands of the Employees. The Employees are liable to bear such income tax liability(s) as per the relevant provisions of the Income-tax Act/Rules prevalent at the relevant time.

(h) The exercise period and the process of exercise

The exercise period may commence from the date of vesting and shall expire not later than 5 years from the date of vesting or such other period as may be decided by the Nomination and Remuneration Committee, from time to time. The options will lapse if not exercised within the specified exercise period or as may be specified by the Nomination and Remuneration Committee. The options granted may also lapse under certain circumstances like termination of employment for misconduct, resignation, etc. even before the expiry of the specified exercise period. Once vested, the option grantee may exercise his/her rights to convert the options granted into equity shares by making an application to the Company and paying the exercise price.

(i) Lock-in Period (if any)

Unless otherwise decided to the contrary by the Nomination and Remuneration Committee of the Board, there shall not be any lock-in-period for the shares allotted pursuant to the exercise of the vested options.

(j) Maximum number of options to be issued per employee and in aggregate

The maximum number of Stock Options to be granted to an eligible employee/KMP/whole-time working director shall be decided by the Nomination and Remuneration Committee.

However, the number of Stock Options that may be granted to an eligible employee/KMPs/whole-time working director under the Lyka ESOS 2025 shall not exceed 1,00,000 Stock Options. The Nomination and Remuneration Committee reserves the right to decide the number of options to be granted and the maximum number of options that can be granted to each employee within this ceiling.

(k) Maximum quantum of benefits to be provided per employee

Apart from grant of stock options as stated above, no monetary benefits are contemplated under the scheme. The maximum quantum of benefits underlying the stock options issued to an employee shall be equal to the difference between the option exercise price and the market price of the shares on the exercise date.

(l) Implementation and Administration

The Lyka ESOS 2025 is proposed to be implemented and administered directly by the Company and not through any Trust.

(m) Whether the Scheme involves new issue of equity shares by the Company or secondary acquisition or both

The Lyka ESOS 2025 will involve only new issue of equity shares by the Company.

(n) Disclosure and accounting policies

The Company shall follow IND AS 102 on share based payments and accounting policies as prescribed by the SEBI SBEB Regulations and those prescribed by the concerned authorities, from time to time, including such other applicable disclosures. In particular, the Company shall conform to the accounting policies specified in Regulation 15 of the SEBI SBEB Regulations.

(o) Method of option valuation

To calculate the employee compensation cost, the company shall use the intrinsic value method for valuation of the options granted. In case the Company calculates the employee compensation cost using the intrinsic value of the stock options, the difference between the employee compensation cost so computed and the cost that shall have been recognized if it had used the fair value of the options, shall be disclosed in the directors' report and also the impact of this difference on profits and on EPS of the Company shall also be disclosed in the directors' report.

(p) The conditions under which options granted/vested may lapse

The granted as well as vested options shall lapse in case of termination of employment due to misconduct or due to breach of Company policies or breach of the terms of employment. Further, irrespective of employment status, in case vested options are not exercised within the prescribed exercise period, then such vested options shall also lapse.

(q) The specified time period within which the employee shall exercise the vested options in the event of a cessation of employment or resignation from employment

In the case of cessation of employment due to death of the employee, all vested options can be exercised by the optionees legal heirs within 1 (One) year from the date of such death.

In the case of cessation of employment due to permanent incapacity of the employee, all vested options can be exercised by the option grantee or nominee of the option grantee, as applicable, within 1 (One) year from the date of such event.

In the case of resignation from the employment, all vested options shall be exercised by the option grantees prior to the last working day in the Company.

Lyka Labs Limited

(r) Terms & conditions for buyback, if any, of specified securities covered under these regulations

The Scheme does not envisage any buyback and hence not applicable

(s) Other terms:

The Board, based on the recommendations of the Nomination and Remuneration Committee, shall have the absolute authority to vary, modify or alter the terms of the scheme in accordance with the Regulations and Guidelines as prescribed by the Securities and Exchange Board of India or Regulations that may be issued by any appropriate authority, from time to time, unless such variation, modification or alteration is detrimental to the interest of the option grantees.

Accordingly, the approval of the Members is being sought for issue of stock options to the Eligible Employees (as defined in the Scheme) of the Company based on satisfaction of the performance of the Eligible Employees and vesting conditions under the Scheme.

None of the members of the Promoter(s) and Promoter(s) Group and/or their relatives are in any way concerned or interested in these resolutions financially or otherwise, except to the extent of their shareholding as Members. The Directors, Key Managerial Personnel or their relatives may be deemed to be concerned or interested in the proposed Special Resolution set out at Item Number 9 of the accompanying Notice, except to the extent of stock options that may be granted to them and to the extent of their shareholding as Members, if any.

The Board of Directors recommends the Resolution as set out in Item Number 9 of the accompanying Notice for approval by the Members of the Company.

Lyka Labs Limited

INDEPENDENT AUDITOR'S REPORT

**To the Members of
Lyka Labs Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Lyka Labs Limited** (the "Company"), which comprise the Balance Sheet as at 31st March, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025, and its profit, total comprehensive income, its cash flows and changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There are no key audit matters to be disclosed.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in

**INDEPENDENT AUDITOR'S REPORT (Cont....)**

India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Lyka Labs Limited**INDEPENDENT AUDITOR'S REPORT (Cont....)**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Lyka Labs Limited** ("the Company") as of 31st March, 2025 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**INDEPENDENT AUDITOR'S REPORT (Cont....)**

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. CORPORATE INFORMATION

Lyka Labs Limited (“the Company”) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956 (as amended by the Companies Act, 2013). Its shares are listed on two stock exchanges in India. The Company is engaged in the business of pharmaceutical and related activities, including research.

2. THE MATERIAL ACCOUNTING POLICIES, ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:**A. THE MATERIAL ACCOUNTING POLICIES:****2.1A Basis of Preparation of Ind-AS Financial Statements**

The Ind-AS financial statements of the Company have been prepared in accordance with the relevant provisions of the Companies Act, 2013, the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with the Companies (Indian Accounting Standards) Amendment Rules, 2017 and the Guidance Notes and other authoritative pronouncements issued by the Institute of Chartered Accountants of India (ICAI).

The Ind-AS financial statements have been prepared on a historical cost basis, except for certain financial assets and financial liabilities measured at fair value (refer accounting policy no. 2.10 regarding financial instruments). Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2.1B Accounting estimates, assumptions and judgements

The preparation of the Standalone Financial Statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the Standalone Financial Statements and the reported amounts of income and expense for the periods presented.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Lyka Labs Limited**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are Deferred Income tax assets and liabilities, Useful lives of property, plant and equipment ('PPE') and intangible assets, Employee benefit obligations, Provisions and contingencies, Impairment of investment in subsidiaries and goodwill

2.2 CURRENT AND NON-CURRENT CLASSIFICATION OF ASSETS AND LIABILITIES AND OPERATING CYCLE:

An asset is considered as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period All other assets are classified as non-current.

A liability is considered as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Operating Cycle is the time between the acquisition of assets for business purposes and their realisation into cash and cash equivalents.

2.3 PROPERTY, PLANT AND EQUIPMENT:

Property, Plant and Equipment are recorded at their cost of acquisition, net of refundable taxes or levies, less accumulated depreciation and impairment losses, if any. The cost thereof comprises of its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost for bringing the asset to its working condition for its intended use.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit or Loss when the asset is derecognised.

For transition to Ind AS, the Company has elected to continue with the carrying value of all its property, plant and equipment recognised as on 1st April, 2016 (date of transition) measured as per previous GAAP as its deemed cost on the date of transition.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

2.4 DEPRECIATION:

Depreciation on Property, Plant and Equipment is provided on different class of assets on the following basis:

Depreciation on Tangible Assets is provided on straight-line method at the rates and manner in accordance with Schedule II to the Companies Act, 2013.

Cost of Leasehold Land and Improvement is written off over the period of Lease.

Depreciation on additions to Property Plant and Equipment is provided on pro-rata basis from the date of acquisition or installation, and in case of new project from the date of commencement of commercial production.

Depreciation on Assets sold, discarded, demolished or scrapped, is provided upto the date on which the said Asset is sold, discarded, demolished or scrapped.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.5 CAPITAL WORK IN PROGRESS AND CAPITAL ADVANCES:

Expenses incurred for acquisition of capital assets outstanding at each balance sheet date are disclosed under capital work-in-progress. Advances given towards the acquisition of fixed assets are shown separately as capital advances under the head Other Non-Current Assets.

2.6 INTANGIBLE ASSETS AND AMORTISATION THEREOF:**2.6.1 INTERNALLY GENERATED INTANGIBLE ASSETS (RESEARCH AND DEVELOPMENT):**

- i) Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the company can demonstrate all the following:
- a) The technical feasibility of completing the intangible asset so that it will be available for use or sale.
 - b) Its intention to complete the asset.
 - c) Its ability to use or sell the asset.
 - d) How the asset will generate future economic benefits.
 - e) The availability of adequate resources to complete the development and to use or sell the asset.
 - f) The ability to measure reliably the expenditure attributable to the intangible asset during development.

2.6.2 OTHER INTANGIBLE ASSETS:

An intangible asset is recognised if

- (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity; and
- (b) the cost of the asset can be measured reliably.

An item of Intangible Asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit or Loss when the asset is derecognised.

Lyka Labs Limited**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

The residual values, useful lives and methods of amortisation of Intangible Assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.6.3.AMORTISATION OF INTANGIBLE ASSETS:

Amortization of the asset begins on a straight-line basis over the period of expected future benefit from the related project. Amortization is recognized in the Statement of Profit and Loss. During the period of development, the asset is tested for impairment annually.

Estimated useful life of the following assets :

Class of Assets	Useful life in years
Internally Developed Intangible	05
Computer Software	05
Technical and Marketing Know-How	10
Brands/Trade Mark / Goodwill	10

The residual values, useful lives and methods of amortisation of Intangible Assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

For transition to Ind AS, the Company has elected to continue with the carrying value of all its Intangible Assets recognised as on 1st April, 2016 (date of transition) measured as per previous GAAP as its deemed cost on the date of transition.

2.7 IMPAIRMENT OF PROPERTY PLANT & EQUIPMENT AND INTANGIBLE ASSETS

Carrying amount of tangible and intangible assets are reviewed at each Balance Sheet date. These are treated as impaired when the carrying cost thereof exceeds its recoverable value. Recoverable value is higher of the asset's net selling price or value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount receivable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal. An impairment loss is charged for when an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.8 INVENTORIES

- Raw Materials, Packing Materials, Work-in-Process and Finished Goods are valued at lower of cost or net realisable value. Cost is determined by using FIFO method. Cost comprises of all costs of purchases (net of CENVAT/GST credit, rebates, trade discount etc.), costs of conversion and cost incurred to bring the inventories to the present location and condition.
- Stores and Spares (excluding capital spares) are charged to consumption as and when purchased.

Net realisable value is the estimated selling price in the ordinary course of business.

2.9 REVENUE RECOGNITION

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government, discounts and rebates.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

- Revenue from Domestic sale is recognised on transfer of significant risks and rewards of ownership which is based on the dispatch of goods.
- Revenue from Export sale is recognised on transfer of significant risks and rewards of ownership based on Bill of lading date.
- Revenue in respect of other income/claims, etc. is recognised only when it is reasonably certain that ultimate collection will be made.
- Interest Income:

For all financial instruments measured at amortised cost, interest income is measured using the Effective Interest Rate (EIR), which is the rate that exactly discounts the estimated future cash flows through the contracted or expected life of the financial instrument, as appropriate, to the net carrying amount of the financial asset.
- Dividend Income:

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

2.10 FINANCIAL INSTRUMENTS:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

FINANCIAL ASSETS:**Initial Recognition and Measurement:**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement:

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortised cost
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- Investments measured at fair value through Profit & Loss (FVTPL)

Financial Assets at Amortised Cost:

A financial asset is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and any fees or costs that are an integral part of the EIR.

Equity Instruments at FVTOCI:

For equity instruments not held for trading, an irrevocable choice is made on initial recognition to measure it at FVTOCI. All fair value changes on such investments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale or disposal of the investment. However, on sale or disposal the company may transfer the cumulative gain or loss within equity.

Lyka Labs Limited**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

Financial Assets at FVTPL:

Even if an instrument meets the two requirements to be measured at amortised cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as “accounting mismatch”) that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. All other financial assets are measured at fair value through profit or loss.

DERECOGNITION:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company’s statement of financial position) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement and either;
 - a) The Company has transferred substantially all the risks and rewards of the asset, or
 - b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

IMPAIRMENT OF FINANCIAL ASSETS:

The company applies the expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposures:

- Financial assets at amortised cost.
- Trade Receivables

The company follows ‘simplified approach’ for recognition of impairment loss allowance on trade receivables. Under this approach the company does not track changes in credit risk but recognises impairment loss allowance based on lifetime ECLs at each reporting date. For this purpose the company uses a provision matrix to determine the impairment loss allowance on the portfolio of trade receivables. The said matrix is based on historically observed default rates over the expected life of the trade receivables duly adjusted for forward looking estimates.

For recognition of impairment loss on other financial assets and risk exposures, the company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the company reverts to recognising impairment loss allowance based on 12-month ECL.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. The ECL impairment loss allowance (or reversal) recognized during the period in the statement of profit and loss and the cumulative loss is reduced from the carrying amount of the asset until it meets the write off criteria, which is generally when no cash flows are expected to be realised from the asset.

FINANCIAL LIABILITIES:

Initial Recognition and Measurement:

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent Measurement:

This is dependent upon the classification thereof as under:

Loans and Borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

OFFSETTING OF FINANCIAL INSTRUMENTS:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise an asset and settle the liabilities simultaneously.

EQUITY INSTRUMENTS:

An equity instrument is any contract that evidences a residual interest in the assets of an entity in accordance with the substance of the contractual arrangements. These are recognised at the amount of the proceeds received, net of direct issue costs.

2.11 EMPLOYEE BENEFITS

- Defined Contribution Plan:

The Company's contribution paid / payable during the year to Provident Fund , ESIC, Superannuation Fund etc., are recognised as expenses in the Statement of Profit and Loss. These are approved / recognised schemes of the Company.

- Defined Benefit Plan:

The Company's annual liability towards Gratuity is funded on the basis of actuarial valuation furnished by the Independent Actuarial Valuer / Life Insurance Corporation of India under Group Gratuity Scheme.

- The undiscounted amount of short-term employee benefit expected to be paid in exchange

Lyka Labs Limited

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

for the service rendered by employees is recognised during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave and performance incentives and are determined using the Projected Unit Credit Method. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the Balance sheet date. Actuarial gains and losses are recognised immediately in the Balance Sheet with a corresponding effect in the Statement of Other Comprehensive Income. Past service cost is recognised immediately in the Statement of Profit or Loss.

2.12 BORROWING COST

Borrowing costs comprising of interest and other costs that are incurred in connection with the borrowing of funds, that are attributable to the acquisition or construction of qualifying assets are considered as a part of cost of such assets less interest earned on the temporary investment. A qualifying asset is one that necessarily takes substantial period of time to get ready for the intended use. All other borrowing costs are charged to Statement of Profit & Loss in the year in which they are incurred.

2.13 LEASES:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

(i) Company as a lessee

The Company's lease asset classes primarily consist of leases for land, buildings and furniture. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

(ii) Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

2.14 FOREIGN CURRENCY TRANSACTIONS:

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised as income or expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.15 TAXES ON INCOME:**Current Income Taxes:**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in other comprehensive income / equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Taxes:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, when the deferred tax liability arises from an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Lyka Labs Limited**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except, when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

Minimum Alternate Tax (MAT):

MAT paid in accordance with the tax laws in India, which give rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the specified years. Accordingly, MAT is recognised as a deferred tax asset in the Balance Sheet when the asset can be measured reliably, and it is probable that the future economic benefits associated with it will flow to the Company.

2.16 PROVISIONS AND CONTINGENT LIABILITIES:

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources.

When the Company expects some or all of a provision to be reimbursed, the same is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A Contingent Liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of enterprise or a present obligation that arises from past events that may, but probably will not, require an outflow of resources.

Both provisions and contingent liabilities are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent Liabilities are not recognized but are disclosed in the notes.

2.17 EARNINGS PER SHARE:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year are adjusted for events including a bonus issue, bonus element in right issue to existing shareholders, share split, and reverse share split (consolidation of shares).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares

2.18 CASH AND CASH EQUIVALENT:

Cash and cash equivalent for the purpose of Cash Flow Statement comprise cash at bank and in hand and short term highly liquid investments which are subject to insignificant risk of changes in value.

2.19 CASH FLOW STATEMENT:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.20 COMMITMENTS:

Commitments are future liabilities for contractual expenditure. The commitments are classified and disclosed as follows:

- (a) The estimated amount of contracts remaining to be executed on capital accounts and not provided for; and
- (b) Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of the Management.

2.21 SEGMENT REPORTING:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

2.22 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of Financial Statements is in conformity with the recognition and measurement principles of Ind AS which requires the management to make judgements for estimates and assumptions that affect the amounts of assets, liabilities and the disclosure of contingent liabilities on the reporting date and the amounts of revenues and expenses during the reporting period and the disclosure of contingent liabilities. Differences between actual results and estimates are recognized in the period in which the results are known/ materialize.

2.23 ESTIMATES ASSUMPTIONS AND JUDGEMENTS:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Estimation of current tax expense and deferred tax:

The calculation of the Company's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal

Lyka Labs Limited**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

legal process. The final resolution of some of these items may give rise to material profits/ losses and/or cash flows. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

b) Recognition of deferred tax assets/ liabilities:

The recognition of deferred tax assets/ liabilities is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. To determine the future taxable profits, reference is made to the latest available profit forecasts.

c) Estimation of Provisions & Contingent Liabilities:

The Company exercises judgement in measuring and recognising provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision

d) Estimated useful life of Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life, its expected usage pattern and the expected residual value at the end of its life. The useful lives, usage pattern and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology etc.

e) Estimation of Provision for Inventory:

The Company writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

f) Estimation of Defined Benefit Obligation:

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post-employment plans include the discount rate. Any changes in these assumptions will impact the carrying amount of such obligations.

g) The Company determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligations. In determining the appropriate discount rate, the Company considers the interest rates of government bonds of maturity approximating the terms of the related plan liability.

h) Estimated fair value of Financial Instruments.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

(b) Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The following table provides the fair value measurement hierarchy of the Company's financials assets and liabilities that are measured at fair value or where fair value disclosure is required:

(₹ in lakhs)

Particulars	As at 31st March, 2025			Total
	Fair Value Measurement Using			
	Quoted Price in active markets	Significant observable input	Significant unobservable inputs	
	Level 1	Level 2	Level 3

Assets measured at fair value				
FVTPL financial investments				
Mutual Funds	-	1.71	-	1.71
Total	-	1.71	-	1.71

(c) Valuation technique to determine fair value

The following methods and assumptions were used to estimate the fair values of financial instruments :

- (i) The management assesses that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (ii) The fair values of the equity investment which are quoted, are derived from quoted market prices in active markets. The Investments measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation reports provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range. The carrying value of those investments are individually immaterial.

(d) Financial risk management objectives

The Company is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company's risk management strategies focus on the un-predictability of these elements and seek to minimise the potential adverse effects on its financial performance. The Company's senior management which is supported by a Treasury Management Group ('TMG') manages these risks with a six monthly rolling basis due to which a natural hedge exist. TMG advises on financial risks and the appropriate financial risk governance framework for the Company and provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

All hedging activities are carried out by specialist teams that have the appropriate skills, experience and supervision. The Company's policy is not to trade in derivatives for speculative purposes.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises of risks relating to interest rate risk and other price risks such as equity price risk and commodity price risk. Financial instruments affected by market risks mainly include borrowings, deposits and investments.

Foreign currency risk management

Foreign exchange risk arises on future commercial transactions and on all recognised monetary assets and liabilities, which are denominated in a currency other than the functional currency of the Company. The Company's management has set policy wherein exposure is identified, benchmark is set and monitored closely, and accordingly suitable hedges are undertaken. Policy also includes mandatory initial hedging requirements for exposure above a threshold.

The Company's foreign currency exposure arises mainly from foreign exchange imports, exports and other income/expenses in foreign currency, primarily with respect to USD.

As at the end of the reporting period, the carrying amounts of the company's foreign currency denominated monetary assets and liabilities in respect of the primary foreign currency i.e. USD and derivative to hedge the exposure, are as follows:

Particulars of foreign currency exposure is as follows:

(e) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade Receivable

Customer credit risk is managed by SCM team subject to the company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored and followed up.

Financial instruments and cash deposits

Credit risk from balances with banks is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of bank deposits and cash credit facilities. Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows. The Company assessed the concentration of risk with respect to its debt and concluded it to be low.

The table below summarises the maturity profile of the company's financial liabilities based on contractual undiscounted payments.

INDEPENDENT AUDITOR'S REPORT

To the Members of Lyka Labs Limited Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Lyka Labs Limited** (herein after referred as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") , which comprise the Consolidated Balance Sheet as at 31st March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow, the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (herein after referred to as "the Consolidated Financial Statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2025, and their consolidated profit, their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There are no key audit matters to be disclosed.

Information Other than the Consolidated Financial Statements and Auditor's Report thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, Shareholders' Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Lyka Labs Limited**INDEPENDENT AUDITOR'S REPORT (Cont....)**

Management Responsibility for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act, that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR’S REPORT (Cont....)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We have audited the financial statements and other financial information in respect of two Subsidiaries whose financial statements reflect total assets of Rs. 978.30 lakhs as at 31st March, 2025, total revenues of Rs. 543.83 lakhs, and net cash outflow amounting to Rs. 3.71 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by us whose reports have been furnished by us and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these Subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid Subsidiaries, is based solely on the reports furnished by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements and the other financial information of a subsidiary as noted in the ‘other matter’ paragraph, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

Lyka Labs Limited**INDEPENDENT AUDITOR'S REPORT (Cont....)**

- (d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2025 taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies are disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (g) In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration for the year ended 31st March, 2025 has been paid/ provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the other financial information of the subsidiaries as noted in the "Other matter" paragraph:
- i. The consolidated financial statements disclose the impact of pending litigations as at 31st March, 2025 on the consolidated financial position of the Group – Refer Note 36 to the consolidated financial statements.
 - ii. The Holding company and its subsidiaries did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025.
 - iii. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Holding Company and its subsidiaries during the year ended 31st March, 2025.
 - iv. (a) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - (b) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Holding Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

**INDEPENDENT AUDITOR'S REPORT (Cont....)**

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. No dividend has been declared or paid during the year by the Holding Company and its subsidiaries, incorporated in India.
- vi. Based on our examination which included test checks, the Holding Company have used accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software. Further, the audit trail feature has not been tampered with and the audit trail has been preserved by the Holding Company as per statutory requirements for record retention.

And in case of two Subsidiaries incorporated in India which have been audited by us, we have observed that the feature of recording audit trail (edit log) facility of the accounting software used for maintaining general ledger was not enabled for the year ended 31st March, 2025.

- 2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Holding Company and its subsidiaries included in the consolidated financial statements of the Holding Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

Lyka Labs Limited**INDEPENDENT AUDITOR'S REPORT (Cont...)**

Annexure – A**To the Independent Auditor's Report on the Consolidated Ind AS Financial Statements of Lyka Labs Limited****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **Lyka Labs Limited** ("the Company") as of 31st March, 2025 in conjunction with our audit of the Consolidated Ind AS Financial Statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as the "Group") for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Companies included in the Group, are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company, internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial control system with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations

**INDEPENDENT AUDITOR'S REPORT (Cont....)**

of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group, have in all material respects, an adequate internal financial control system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2025, based on the internal controls with reference to financial statements criteria established by the Holding Company, considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

1. CORPORATE INFORMATION

Lyka Labs Limited (“the Company”) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956 (as amended by the Companies Act, 2013). Its shares are listed on two stock exchanges in India. The Company is engaged in the business of pharmaceutical and related activities, including research.

2. THE MATERIAL ACCOUNTING POLICIES, ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:**A. THE MATERIAL ACCOUNTING POLICIES:****2.1A Basis of Preparation of Ind-AS Consolidated financial statements**

These Ind-AS consolidated financial statements of Lyka Labs Limited (“the Company”) and its subsidiaries (hereinafter referred to as “the Group”), have been prepared in accordance with the relevant provisions of the Companies Act, 2013, the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with the Companies (Indian Accounting Standards) Amendment Rules, 2017 and the Guidance Notes and other authoritative pronouncements issued by the Institute of Chartered Accountants of India (ICAI).

For all periods up to and including the year ended 31 March 2017, the Group prepared its consolidated financial statements in accordance with Indian GAAP, including accounting standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended). These consolidated financial statements for the year ended 31 March 2018 are the first the Group has prepared in accordance with Ind-AS. Refer to note 55 for information on how the Group adopted IndAS, including the details of the first time adoption exemptions availed by the Group.

The Ind-AS consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and financial liabilities measured at fair value (refer accounting policy no. 2.11 regarding financial instruments). Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

2.1B Accounting estimates, assumptions and judgements

The preparation of the Standalone Financial Statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the Standalone Financial Statements and the reported amounts of income and expense for the periods presented.

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are Deferred Income tax assets and liabilities, Useful lives of property, plant and equipment ('PPE') and intangible assets, Employee benefit obligations, Provisions and contingencies, Impairment of investment in subsidiaries and goodwill

2.2 Principles of Consolidation:**Subsidiaries**

Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Company is exposed to, or has rights, to variable returns from its involvement with the entity, and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. The financial statements of the Company and its subsidiaries and jointly controlled entity have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances as mentioned in those policies.

Upon loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in the Consolidated Statement of Profit and Loss. If the Company retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee depending on the level of influence retained.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealized gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Company's interest in the investee.

Non-controlling interests ("NCI")

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

2.3 CURRENT AND NON-CURRENT CLASSIFICATION OF ASSETS AND LIABILITIES AND OPERATING CYCLE:

An asset is considered as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

A liability is considered as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Operating Cycle is the time between the acquisition of assets for business purposes and their realization into cash and cash equivalents.

2.4 PROPERTY, PLANT AND EQUIPMENT:

Property, Plant and Equipment are recorded at their cost of acquisition, net of refundable taxes or levies, less accumulated depreciation and impairment losses, if any. The cost thereof comprises of its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost for bringing the asset to its working condition for its intended use.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on DE recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit or Loss when the asset is derecognized.

For transition to Ind AS, the Group has elected to continue with the carrying value of all its property, plant and equipment recognized as on 1st April, 2016 (date of transition) measured as per previous GAAP as its deemed cost on the date of transition.

2.5 DEPRECIATION:

Depreciation on Property, Plant and Equipment is provided on different class of assets on the following basis:

Depreciation on Tangible Assets is provided on straight-line method at the rates and manner in accordance with Schedule II to the Companies Act, 2013.

Cost of Leasehold Land and Improvement is written off over the period of Lease.

Depreciation on additions to Property Plant and Equipment is provided on pro-rata basis from the date of acquisition or installation, and in case of new project from the date of commencement of commercial production.

Depreciation on Assets sold, discarded, demolished or scrapped, is provided up to the date on which the said Asset is sold, discarded, demolished or scrapped.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.6 CAPITAL WORK IN PROGRESS AND CAPITAL ADVANCES:

Expenses incurred for acquisition of capital assets outstanding at each balance sheet date are disclosed under capital work-in-progress. Advances given towards the acquisition of fixed assets are shown separately as capital advances under the head Other Non-Current Assets.

Lyka Labs Limited

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

2.7 INTANGIBLE ASSETS AND AMORTISATION THEREOF:

2.7.1 INTERNALLY GENERATED INTANGIBLE ASSETS (RESEARCH AND DEVELOPMENT):

- i) Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the group can demonstrate all the following:
 - a) The technical feasibility of completing the intangible asset so that it will be available for use or sale.
 - b) Its intention to complete the asset.
 - c) Its ability to use or sell the asset.
 - d) How the asset will generate future economic benefits.
 - e) The availability of adequate resources to complete the development and to use or sell the asset.
 - f) The ability to measure reliably the expenditure attributable to the intangible asset during development.

2.7.2 OTHER INTANGIBLE ASSETS:

An intangible asset is recognized if

- (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity; and
- (b) the cost of the asset can be measured reliably.

An item of Intangible Asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on DE recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit or Loss when the asset is derecognized.

The residual values, useful lives and methods of amortization of Intangible Assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.7.3. AMORTISATION OF INTANGIBLE ASSETS:

Amortization of the asset begins on a straight line basis over the period of expected future benefit from the related project. Amortization is recognized in the Statement of Profit and Loss. During the period of development, the asset is tested for impairment annually.

Estimated useful life of the following assets of Lyka BDR Limited, and Lyka Exports Limited (Subsidiary Companies)

Class of Assets	Useful life in years
Registration Rights	10
Technical and Marketing Know-How	10
Brands / Goodwill	10

The residual values, useful lives and methods of amortization of Intangible Assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

For transition to Ind AS, the Group has elected to continue with the carrying value of all its Intangible Assets recognized as on 1st April, 2016 (date of transition) measured as per previous GAAP as its deemed cost on the date of transition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

2.8 IMPAIRMENT OF PROPERTY PLANT & EQUIPMENT AND INTANGIBLE ASSETS

Carrying amount of tangible and intangible assets are reviewed at each Balance Sheet date. These are treated as impaired when the carrying cost thereof exceeds its recoverable value. Recoverable value is higher of the asset’s net selling price or value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount receivable from the sale of an asset in an arm’s length transaction between knowledgeable, willing parties, less the cost of disposal. An impairment loss is charged for when an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.9 INVENTORIES

- Raw Materials, Packing Materials, Work-in-Process and Finished Goods are valued at lower of cost or net realizable value. Cost is determined by using FIFO method. Cost comprises of all costs of purchases (net of CENVAT/GST credit, rebates, trade discount etc.), costs of conversion and cost incurred to bring the inventories to the present location and condition.
- Stores and Spares (excluding capital spares) are charged to consumption as and when purchased.

Net realizable value is the estimated selling price in the ordinary course of business.

2.10 REVENUE RECOGNITION

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government, discounts and rebates.

- Revenue from Domestic sale is recognized on transfer of significant risks and rewards of ownership which is based on the dispatch of goods.
- Revenue from Export sale is recognized on transfer of significant risks and rewards of ownership based on Bill of lading date.
- Revenue in respect of other income/claims, etc. is recognized only when it is reasonably certain that ultimate collection will be made.

• Interest Income:

For all financial instruments measured at amortized cost, interest income is measured using the Effective Interest Rate (EIR), which is the rate that exactly discounts the estimated future cash flows through the contracted or expected life of the financial instrument, as appropriate, to the net carrying amount of the financial asset.

• Dividend Income:

Dividend income is recognized when the Group’s right to receive the payment is established, which is generally when shareholders approve the dividend.

2.11 FINANCIAL INSTRUMENTS:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

FINANCIAL ASSETS:

Initial Recognition and Measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent Measurement:

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortized cost
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- Investments measured at fair value through Profit & Loss (FVTPL)

Financial Assets at Amortized Cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any fees or costs that are an integral part of the EIR.

Equity Instruments at FVTOCI:

For equity instruments not held for trading, an irrevocable choice is made on initial recognition to measure it at FVTOCI. All fair value changes on such investments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale or disposal of the investment. However, on sale or disposal the Group may transfer the cumulative gain or loss within equity.

Financial Assets at FVTPL:

Even if an instrument meets the two requirements to be measured at amortized cost or fair value through other comprehensive income, a financial asset is measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as "accounting mismatch") that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases. All other financial assets are measured at fair value through profit or loss.

DERECOGNITION:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Group's statement of financial position) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement and either:
 - a. The Group has transferred substantially all the risks and rewards of the asset, or
 - b. The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

IMPAIRMENT OF FINANCIAL ASSETS:

The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposures:

- Financial assets at amortized cost.
- Trade Receivables

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Under this approach the Group does not track changes in credit risk but recognizes impairment loss allowance based on lifetime ECLs at each reporting date. For this purpose the Group uses a provision matrix to determine the impairment loss allowance on the portfolio of trade receivables. The said matrix is based on historically observed default rates over the expected life of the trade receivables duly adjusted for forward looking estimates.

For recognition of impairment loss on other financial assets and risk exposures, the Group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Group reverts to recognizing impairment loss allowance based on 12-month ECL.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. The ECL impairment loss allowance (or reversal) recognized during the period in the statement of profit and loss and the cumulative loss is reduced from the carrying amount of the asset until it meets the write off criteria, which is generally when no cash flows are expected to be realized from the asset.

FINANCIAL LIABILITIES:

Initial Recognition and Measurement:

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent Measurement:

This is dependent upon the classification thereof as under:

Loans and Borrowings:

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

DERECOGNITION:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the DE recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

OFFSETTING OF FINANCIAL INSTRUMENTS:

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize an asset and settle the liabilities simultaneously.

EQUITY INSTRUMENTS:

An equity instrument is any contract that evidences a residual interest in the assets of an entity in accordance with the substance of the contractual arrangements. These are recognized at the amount of the proceeds received, net of direct issue costs.

2.12 EMPLOYEE BENEFITS

- Defined Contribution Plan:

The Group's contribution paid / payable during the year to Provident Fund, ESIC, Superannuation Fund etc., are recognized as expenses in the Statement of Profit and Loss. These are approved / recognized schemes of the Group.

- Defined Benefit Plan:

The Group's annual liability towards Gratuity is funded on the basis of actuarial valuation furnished by the Independent Actuarial Valuer / Life Insurance Corporation of India under Group Gratuity Scheme.

- The undiscounted amount of short-term employee benefit expected to be paid in exchange for the service rendered by employees is recognized during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave and performance incentives and are determined using the Projected Unit Credit Method. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the Balance sheet date. Actuarial gains and losses are recognized immediately in the Balance Sheet with a corresponding effect in the Statement of Other Comprehensive Income. Past service cost is recognized immediately in the Statement of Profit or Loss.

2.13 BORROWING COST

Borrowing costs comprising of interest and other costs that are incurred in connection with the borrowing of funds that are attributable to the acquisition or construction of qualifying assets are considered as a part of cost of such assets less interest earned on the temporary investment. A qualifying asset is one that necessarily takes substantial period of time to get ready for the intended use. All other borrowing costs are charged to Statement of Profit & Loss in the year in which they are incurred.

2.14 LEASES:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

(i) Company as a lessee

The Company's lease asset classes primarily consist of leases for land, buildings and furniture. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

(ii) Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease. For operating leases, rental income is recognised on a straight-line basis over the term of the relevant lease.

2.15 FOREIGN CURRENCY TRANSACTIONS:

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

Differences arising on settlement or translation of monetary items are recognized as income or expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

2.16 TAXES ON INCOME:**Current Income Taxes:**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized directly in equity is recognized in other comprehensive income / equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Taxes:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, when the deferred tax liability arises from an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except, when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

Minimum Alternate Tax (MAT):

MAT paid in accordance with the tax laws in India, which give rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company and its subsidiaries will pay normal income tax after the specified years. Accordingly, MAT is recognized as a deferred tax asset in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefits associated with it will flow to the Group.

2.17 PROVISIONS AND CONTINGENT LIABILITIES:

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources.

When the Group expects some or all of a provision to be reimbursed, the same is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A Contingent Liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of enterprise or a present obligation that arises from past events that may, but probably will not, require an outflow of resources.

Both provisions and contingent liabilities are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent Liabilities are not recognized but are disclosed in the notes.

2.18 EARNINGS PER SHARE:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year are adjusted for events including a bonus issue, bonus element in right issue to existing shareholders, share split, and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.19 CASH AND CASH EQUIVALENT:

Cash and cash equivalent for the purpose of Cash Flow Statement comprise cash at bank and in hand and short term highly liquid investments which are subject to insignificant risk of changes in value.

2.20 CASH FLOW STATEMENT:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

2.21 COMMITMENTS:

Commitments are future liabilities for contractual expenditure. The commitments are classified and disclosed as follows:

- (a) The estimated amount of contracts remaining to be executed on capital accounts and not provided for; and
- (b) Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of the Management.

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

2.22 SEGMENT REPORTING:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

2.23 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of Consolidated financial statements is in conformity with the recognition and measurement principles of Ind AS which requires the management to make judgements for estimates and assumptions that affect the amounts of assets, liabilities and the disclosure of contingent liabilities on the reporting date and the amounts of revenues and expenses during the reporting period and the disclosure of contingent liabilities. Differences between actual results and estimates are recognized in the period in which the results are known/ materialize.

2.24 ESTIMATES ASSUMPTIONS AND JUDGEMENTS:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

a) Estimation of current tax expense and deferred tax:

The calculation of the Group's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The final resolution of some of these items may give rise to material profits/ losses and/or cash flows. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

b) Recognition of deferred tax assets/ liabilities:

The recognition of deferred tax assets/ liabilities is based upon whether it is more likely than not that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted. To determine the future taxable profits, reference is made to the latest available profit forecasts.

c) Estimation of Provisions & Contingent Liabilities:

The Group exercises judgement in measuring and recognizing provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual liability may be different from the originally estimated as provision

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

d) Estimated useful life of Property, Plant and Equipment:

Property, Plant and Equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life, its expected usage pattern and the expected residual value at the end of its life. The useful lives, usage pattern and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology etc.

e) Estimation of Provision for Inventory:

The Group writes down inventories to net realizable value based on an estimate of the realisability of inventories. Write downs on inventories are recorded where events or changes in circumstances indicate that the balances may not be realized. The identification of write-downs requires the use of estimates of net selling prices of the down-graded inventories. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

f) Estimation of Defined Benefit Obligation:

The present value of the defined benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for post-employment plans include the discount rate. Any changes in these assumptions will impact the carrying amount of such obligations.

- g)** The Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the defined benefit obligations. In determining the appropriate discount rate, the Group considers the interest rates of government bonds of maturity approximating the terms of the related plan liability.

h) Estimated fair value of Financial Instruments.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Management uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

- (i) Demands were raised against the Holding Company aggregating to ₹ 680.62 Lakhs (as at 31st March 2024 ₹ 680.62 Lakhs) plus interest thereon under the Drug Price Control Order 1979 by the Government of India and the same was contested by the Holding Company. In the earlier years, the Holding Company had received recovery notices for recovery of ₹ 2,094.41 Lakhs (as at 31st March 2024 ₹ 2,094.41 Lakhs) to be deposited into "Drug Price Equalisation Account".

Lyka Labs Limited**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025**

The Holding Company has challenged the said notices in the writ petitions before the Hon'ble High Court of Gujarat. The Hon'ble High Court has admitted the writ petitions subject to the Holding Company depositing certain amounts against the said demands. Accordingly, the Holding Company has deposited ₹ 1,032.45 Lakhs (as at 31st March 2024 ₹ 1,032.45 Lakhs).

The Holding Company expects favourable outcome in the said writ petitions and hence, the amounts paid have been treated as advances which are considered by the Holding Company as good and recoverable.

- (ii) (a) The Holding Company has received an Order from the Gujarat Sales Tax Commissioner (Appeals) Baroda, dated 24th January, 2011 in respect of Holding Company's appeal against the demand for Gujarat Sales Tax of ₹ 1,324.08 Lakhs for the financial year 2002-2003 for non-submission of proof of export. The Commissioner of Sales Tax (Appeals) based on the facts as submitted, has revised the demand to ₹ 85.44 Lakhs (as at 31st March 2024 ₹ 85.44 Lakhs) against which Holding Company has made payment of ₹ 45.81 Lakhs (as at 31st March 2024 ₹ 45.81 Lakhs) under protest. The Holding Company has further contested this demand before the Sales Tax Tribunal. The matter is sub-judice and the payments of ₹ 45.81 Lakhs (as at 31st March 2024 ₹ 45.81 Lakhs) are considered by the Holding Company as good and recoverable.

(b) Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table provides the fair value measurement hierarchy of the Company's financials assets and liabilities that are measured at fair value or where fair value disclosure is required:

Mutual Funds	-	1.71	-	1.71
Total	7.47	1.71	-	9.18

(c) Valuation technique to determine fair value

The following methods and assumptions were used to estimate the fair values of financial instruments :

- (i) The management assesses that fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (ii) The fair values of the equity investment which are quoted, are derived from quoted market prices in active markets. The Investments measured at fair value and falling under fair value hierarchy Level 3 are valued on the basis of valuation reports provided by external valuers with the exception of certain investments, where cost has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair values within that range. The carrying value of those investments are individually immaterial.

Lyka Labs Limited

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

(d) Financial risk management objectives

Credit risk from balances with banks is managed by the Holding Company’s treasury department in accordance with the Holding Company’s policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty’s potential failure to make payments.

Liquidity risk

Liquidity risk is defined as the risk that the Holding Company will not be able to settle or meet its obligations on time or at reasonable price. The Holding Company’s objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Holding Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of bank deposits and cash credit facilities. Processes and policies related to such risks are overseen by senior management. Management monitors the Holding Company’s liquidity position through rolling forecasts on the basis of expected cash flows. The Holding Company assessed the concentration of risk with respect to its debt and concluded it to be low.
