We have audited the internal financial controls over financial reporting of **Encore Software Limited** ("the Company") as of 31st March, 2019 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

VALUE RESEARCH PREMIUM

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company does not have adequate and effective internal financial control over financial reporting as at 31st March, 2019.

- g) **Borrowing Costs:** Borrowing costs consists of interest and other costs that the company incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

- h) **Inventories:** Inventories are valued at the lower of cost and realizable value.

Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in first out basis.

Net realizable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

- i) **Revenue Recognition:** Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognized.

Sale of Goods: Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The company provides for warranty cost on all its products sold which is recognized at the time the product is sold.

Income from Services: Revenues from sale of services is recognized and when the services are rendered. The company collects taxes on behalf of the government and, therefore, it is not an economic benefit flowing to the company. Hence, it is excluded from revenue.

Interest Income: Interest income including income arising from other financial instruments measured at amortized cost, is recognized using the effective interest rate method

- j) **Employee Benefits:**

- i) **Post-Employment Benefit Plans:** During the year under review, there were no employees employed in the Company. Hence, the Company has not made any provision for gratuity and leave encashment.
- ii) **Short-Term Employee Benefits:** The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave, overseas social security contributions and performance incentives.

- k) **Foreign Currency Transactions:** Foreign currency transactions on revenue account are translated at the rates prevailing on the day when the expenses were incurred/income earned.

All monetary assets and liabilities denominated in foreign currency are restated at the rates prevailing at the year end and all exchange gains/ losses arising there from are adjusted to the Statement of Profit and Loss.

- l) **Retirement and Other Benefits:**

- i) **Short Term Employee Benefits:** All employee benefits falling due wholly within twelve months of rendering the services are classified as short term employee benefits, which include benefits like salaries, short term

compensated absences and performance incentives and are recognized as expenses in the year in which the employee renders the related service.

ii) **Post-Employment Benefits:**

- Retirement benefit in the form of Provident fund and Employees State Insurance Fund is a defined contribution scheme. These Contributions are charged to the statement of profit and loss for the year when the contributions are due.
- Gratuity liability is defined benefit obligation. The liability in respect of gratuity to employees is being managed in association with LIC through their Super Annuation and Gratuity Schemes.
- Leave Encashment: Provision for Leave Encashment on retirement is determined, accrued and provided on the basis of valuation done by the Company. As per the Company's policy, every employee enjoys one Privilege leave for every 20 days worked. An employee is allowed to carry over privilege leave not exceeding 30 days to next year. If they have credit of leaves in excess of 30 days, balance in excess of 30 days is encashed.

m) **Taxes on Income:** Tax expense comprises current tax, and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961, enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

n) **Earning Per Share:** Basic Earnings per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

o) **Provisions and Contingent Liabilities:** A provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation, in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company does not have adequate and effective internal financial control over financial reporting as at 31st March, 2019.

In our opinion, the subsidiary Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

27th Annual Report 2018-2019 | 57

Notes Forming Part of the Consolidated Financials Statements for the financial year ended 31st March, 2019

1. **CORPORATE INFORMATION:** Encore Software Limited (hereinafter called as “Company”) is a Public Limited Company domiciled in India incorporated under provisions of Companies Act, 1956. Company is engaged in developing software and hardware.
2. **BASIS OF PREPARATION OF FINANCIAL STATEMENTS:** In accordance with the notification issued by the ministry of corporate affairs, the company has adopted Indian Accounting Standards (‘Ind AS’) notified under the companies (Indian Accounting Standards) Rules, 2015 with effect from 1st April, 2017. The consolidated financial statements of the company are prepared and presented in accordance with Ind AS.

The financial statements have been prepared on the historical cost basis, except for certain financial instruments (refer accounting policy regarding financial instruments) which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services as at the date of respective transactions.

2.1 Summary of Significant Accounting Policies

- a) **Use of Estimates:** The preparation of the financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the accounting policies, management makes various judgements, which have significant effect on the amounts recognized in the financial statements.

The company bases its estimates and assumptions on parameter when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions when they occur.

- b) **Current Versus Non-Current Classification:** The company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting period or.
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period or.
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The company has evaluated and considered its operating cycle as 12 months.

Deferred tax assets/liabilities are classified as non-current assets/liabilities.

- c) **Property, Plant and Equipment:** Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Each part of an item of property plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the property, plant and equipment is de-recognized.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in progress.

- d) **Depreciation:** Depreciation on Tangible Assets has been provided under Straight Line method based on useful life as estimated by the management which are less than the useful life of assets prescribed in Part C of Schedule II of the Companies Act, 2013.

Depreciation is charged on pro-rata basis for assets purchased/sold during the year. Individual assets costing less than ₹ 5000/- are depreciated in full in year of purchase.

Intangible assets are amortized over their respective individual estimated useful life on straight line basis, commencing from the date the asset is available to the Company for its use.

- e) **Intangible Assets:** Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalized development costs, are not capitalized and expenditure is reflected in the statement of profit and loss in the period in which the expenditure is incurred.

Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

n) Earning Per Share: Basic Earnings per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

o) Provisions and Contingent Liabilities: A provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation, in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Dear Shareholder:

SUB: Updation of PAN & Bank Details

This has reference to the shares held by you in the Company. We draw your attention to the circular issued by Securities and Exchange Board of India (SEBI) No. SEBI/HO/MIRSD/DOP1/CIR/P/2018/73 dated 20th April, 2018. SEBI, in point no. 12 (ii) of the Annexure to its circular had directed all the listed companies to send communication to all its shareholders through their Registrars and Transfer agents (RTA), who are holding shares in physical form and obtain copy of the PAN of all the holders and Bank account details of the first/sole shareholder of the Company.

These guidelines are issued by SEBI to streamline and strengthen the procedures and processes with regard to handling and maintenance of records, transfer of securities and payment of dividend/interest/redemption by the RTAs, Issuer Companies and Bankers to Issue.

To enable the RTA to update the PAN and Bank account details, request you to kindly submit the following documents within 21 days of this letter to RTA:

- **Copy of self-attested PAN card of the shareholders including joint holders, if any in the format attached**
- **Bank A/c details of the first/sole shareholder, as per the Bank Mandate format attached**
- **Original cancelled cheque leaf with the name of the first/sole shareholder printed on it or copy of bank passbook showing name & account details of the account holder attested by the bank**

On receipt of the above documents, RTA will update the same in their records.

In case of dividend declaration by the Company, all dividends including past unpaid dividends, if any, will be directly credited to the bank account furnished by you. It is not out of place to mention here that under Section 124 (6) of the Companies Act 2013, if dividends remain unpaid/unclaimed for a period of seven consecutive years then the underlying shares are also liable to be transferred to the A/c of IEPF authority.

Hence, we request you to kindly submit the documents sought immediately.

Further, we draw your attention to the notification issued by SEBI dated 8th June, 2018 amending Regulation 40 of the Listing Regulations. Pursuant to this, request for effecting transfer of securities shall not be processed except in case of transmission or transpositions of securities unless the securities are held in demat form.

Hence, RTA would not be in a position to accept/process the requests for transfer of shares held in physical form with effect from 4th December, 2018. We therefore advise you to take immediate steps for dematerializing your shareholding in the Company. As you may be aware holding shares in dematerialized form offers host of benefits like enhanced security, ease of handling, faster transfers, exemption from stamp duty, eliminating bad deliveries. In view of the above, in order to ensure that you are able to deal in the securities hassle-free, kindly take steps for dematerializing the shares at an early date.

We also request you to kindly arrange to send the RTA the first/sole shareholders email Id for sending future communications as per the format attached.

Thanking you,

Yours truly,
For Encore Software Limited
