Print is projected to continue its growth of 7.3%, largely on the back of continued leadership growth in vernacular markets and advertisements 'confidence in the medium, tier II and tier III cities. Films segments is expected to bounce back and is forecasted to grow at CAGR of 7.7 % as the revenue streams broaden. Digital advertising is expected to grow at a CAGR of 32% by 2020. Foreign Animation film producers like Disney, Pixar and others are spending huge resources, which are 30 to 40 times the amount being spent by the Indian animation film producers. This makes the quality of Their Production far superior and the Indian Animation Film Industry is unable to compete with these high-quality films in the global market. In addition, substantial amount must be spent in promotion and prerelease activities for the animation films rendering them unviable. Though quality and creativity are well appreciated by the media industry they are not well rewarded with revenues.

The Management has decided to discontinue the production of animation films. The Management proposes to leverage its Brand Equity with outsourced Contents to build a resilient Business Model. The company will aggressively pursue distribution of digital contents for both Live and Animation for Theatrical, Television and online to increase sales and margins.
