The Company can not guarantee these assumptions and expectations being accurate or will be realized nor the risks outlined exhaustive. The Company assumes no responsibility to publicly amend, modify or revise any of these statements on the basis of any subsequent developments, information or events.

REVIEW OF OPERATIONS

During the year there is no change in the scenario of Penicillin products. Active Pharmaceuticals Ingredients (API) suppliers in Europe and United States are facing increasing pricing pressures due to presence of low cost providers in developing markets, excess big Pharma capacity, and backward integration by certain generic companies. China is still controlling the prices of Penicillins & 6-APA resulting in fluctuations in Amoxicillin prices.

Due to delays in financial restructuring the Company could not start its own production and continue the Job Work activities for Unimark Remedies Limited.

OUTLOOK ON OPPORTUNITY

The domestic bulk drug industry is poised to benefit from the impending patent expiries in the regulated markets leading to increase in generic penetration; thereby providing a Significant opportunity for supply of APIs to manufacturers of such generic drugs coupled with increased outsourcing of bulk drugs by multinational pharmaceutical companies.

As the site is penicillin based it will be difficult for change in the product range considering regulatory concerns. Hence, in order to sustain the competitive Semi Synthetic Penicillin price, company is developing a cost effective process for the manufacturing of Amoxicillin Trihydrate. Pilot trials for the same are successfully completed & commercialization will be start by this year.

Company in co-operation with **Unimark Remedies Limited** has completed the pilot trials of biocatalyst in our Biotech facility.

OUTLOOK ON CONCERN

China remains a dominant player in the global bulk drug industry given its large scale manufacturing capabilities, cost leadership and sufficient availability of intermediates due to strong technological capabilities in fermentation. This growing competition from China and from our Indian counterparts remains a challenge to survive in this business.

SEGMENT WISE PERFORMANCE

The Company has only one segment i.e. Pharmaceuticals.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has adequate system of internal controls to ensure that all the assets are safeguarded and are protected. Necessary checks and balances are in place to ensure that transactions are adequately authorised and reported correctly. 1. We have audited the attached Balance Sheet of **KDL BIOTECH LIMITED** as at 31st March, 2012 and also the Statement of Profit and Loss and the Cash Flow Statement of the Company for the year ended on that date, annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
