### Suitability

This fund is mandated to invest at least 80 per cent of its assets in the shares of banks and financial services companies. Being passively managed, it replicates the portfolio of its chosen benchmark index. Given their narrowly defined investment mandate, you should invest in such funds only if you have a deep conviction on the prospects of the banking sector. If not, you should opt for flexi-cap funds which have a much broader investment mandate.

But if you do invest, you must do so only if you have an investment horizon of more than seven years. Investing through the SIP route is recommended.

### Taxability of earnings:

#### Capital gains:

- If the mutual fund units are sold after 1 year from the date of investment, gains upto Rs 1.25 lakh in a financial year are exempt from tax. Gains over Rs 1.25 lakh are taxed at the rate of 12.5%.
- If the mutual fund units are sold within 1 year from the date of investment, entire amount of gain is taxed at the rate of 20%.
- No tax is to be paid as long as you continue to hold the units.

#### Dividends:

- Dividends are added to the income of the investors and taxed according to their respective tax slabs. Further, if an investor's dividend income exceeds Rs. 10,000 in a financial year, the fund house also deducts a TDS of 10% before distributing the dividend.
